Sustainable Production Consumption Systems Remote Sensing of Agriculture and Land Cover/Land Use Changes in South and Southeast Asian Countries Biofuel Technologies Greenhouse Gas Emissions and Emissions Mitigation from Agricultural and Horticultural Production Systems *Louis Lebel Krishna Prasad Vadrevu Vijai Kumar Gupta Matthew Tom Harrison*

sustainable production consumption systems brings together a set of designed case studies intended to provide a more in depth understanding of challenges and opportunities in bringing knowledge and actions closer together for the sustainable management of specific production and consumption systems the case study approach enabled researchers to engage directly with some of the actors involved in the production consumption or regulation of specific goods or services and other stakeholders affected by those processes such engagement was particularly worthwhile when it helped mobilize actors to pursue linking knowledge with action in ways that improve the prospects for sustainability

this book sheds new light on the remote sensing of agriculture in south southeast asian s sea countries s sea countries are growing rapidly in terms of population industrialization and urbanization one of the critical challenges in the region is food security in s sea although total food production and productivity have increased in previous decades in recent years the growth rate of food production has slowed down mostly due to land use change market forces and policy interventions further the weather and climate systems in the region driven primarily by monsoon variability are resulting in droughts or flooding impacting agricultural production therefore monitoring crops including agricultural land cover changes at regular intervals is essential to predict and prepare for disruptions in the food supply in the s sea countries the current book captures the latest research on the remote sensing of agricultural land cover land use changes including mapping and monitoring crops crop yields biophysical parameter retrievals multi source data fusion for agricultural applications and chapters on decision making and early warning systems for food security the authors of this book are international experts in the field and their contributions highlight the use of remote sensing and geospatial technologies for agricultural research and applications in south southeast asia
