in this cultural history of the origins of the cold war john fousek argues boldly that american nationalism provided the ideological glue for the broad public consensus that supported u s foreign policy in the cold war era from the late 1940s through the late 1980s the united states waged cold war against the soviet union not primarily in the name of capitalism or western civilization neither of which would have united the american people behind the cause but in the name of america through close readings of sources that range from presidential speeches and popular magazines to labor union debates and the african american press fousek shows how traditional nationalist ideas about national greatness providential mission and manifest destiny influenced postwar public culture and shaped u s foreign policy discourse during the crucial period from the end of world war ii to the beginning of the korean war ultimately he says in the atmosphere created by apparently unceasing international crises americans rallied around the flag eventually coming to equate national loyalty with global anticommunism and an interventionist foreign policy

covering 1816 2016 this book deals extensively with the international system as well as the territorial outcomes of several key wars that were waged during that time period providing an instructive lesson in diplomatic history and international relations among global powers based on an in depth review of the leading theories in the field of international relations international relations theory of war explains an innovative theory on the international system developed by the author that he applies comprehensively to a large number of case studies the book argues that there is a unipolar system that represents a kind of innovation relative to other systemic theories it further posits that unipolar systems will be less stable than bipolar systems and more stable than multipolar systems providing new insights relative to other theories that argue that unipolar systems are the most stable ones the first chapter is devoted to explaining the manner of action of the two dependent variables systemic international outcome and intra systemic international outcome the second chapter presents the international relations theory of war and its key assumptions the third chapter precisely defines the distribution of power in the system the fourth chapter examines the theory s two key phenomena the fifth and last chapter presents the book s conclusions by examining the theoretical assumptions of the international relations theory of war
