tax law is one of the legal fields with the most subtle influence on european integration and eu law the european economic cooperation project emerged with the customs union essentially a tax law concept and evolved alongside other topics of tax harmonization still the existence of the eu tax law is disputed the research on the topic is significant as the integration of national economies and markets has increased substantially both within the eu and globally this has put a strain on domestic tax rules which are subject to the demands of the international taxation requirements this book explores the relationship between tax avoidance regulation and sovereignty within the european union analyzing the impact of the effective regulatory methods for limiting and eliminating aggressive tax planning by multinational companies focusing on analyzing good practice in fiscal regulation efficiency and the results generated by the tax jurisprudence both at national and european level its main objective is to present the argument for inter dependency between taxation and the current changes in the concept of sovereignty it highlights where fiscal regulation has led to uniform yet flexible solutions for the actual fight against companies abusive fiscal conduct when taking advantage of tax competition this text will be of value to academics researchers and advanced students in tax law and tax avoidance regulation and their intersection with sovereignty in the context of the european union

in the wake of the panama papers scandal and similar leaks tax havens are now firmly in the spotlight today roughly half of all global trade still passes through tax haven jurisdictions costing millions in lost revenue to countries around the world such practices affect all of us but are most keenly felt by poorer people in developing countries where unfair tax practices have become a major obstacle to development and which have allowed multinational corporations to continue to exploit developing economies this collection argues that for developing countries to achieve social justice and lasting prosperity they must take control of their own tax destinies and that this will also be crucial to achieving the sustainable development goals covering such topics as natural resource management representation in global tax institutions and effective strategies for building and protecting tax bases the collection brings together expertise from a variety of countries and disciplines it explores the options available to developing countries and provides a basis for concerted action by tax authorities policy makers academics and civil society experts to design tax systems that can sustain a just society

study on the question of harmonization of direct taxation among european community member states how member states must comply with ec law as they apply their tax treaties how ec law regulates cross border tax issues within the community and how ec law affects tax treaties between eu member states and third countries the book provides expert commentary on 27 leading tax cases from the european court of justice and gives the proposal of ec model tax convention which combines existing provisions of international tax law with the principles of community tax law
