vladimir putin has a master plan to destroy europe divide nato reclaim russian influence in the world and most of all to marginalize the united states and the west in order to achieve regional hegemony and global power putin s unified strategy and vision for europe has not been thoroughly discussed or articulated in any meaningful way until now putin s master plan is the first comprehensive attempt to systematically explain putin s global strategy which could inevitably and inexorably lead to the breakup of the nato alliance and potentially to war with the west currently the west has no strategy no plan and no tactics to confront putin s master plan other than imposing limited economic sanctions which have done little to deter putin s aggression and may well have encouraged and facilitated it the viewpoint taken here is not just alarmism but an accurate and for the first time clear and sober portrayal of a frightening situation that more and more serious observers of european and russian politics are openly recognizing and acknowledging putin s master plan makes the case that it is essential to wake up to putin s strategy to destroy europe divide nato and build a new empire in the former soviet union russia has demonstrated an extraordinary level of aggression most boldly in its outright invasions of georgia and ukraine american weakness and a divided europe have left russia s terrified neighbors without an alternative to russian domination and even once stalwart american allies such as the republic of georgia are on the brink of becoming part of putin s new empire in europe putin has made it clear that he sees nato expansion as a fundamental threat to russian nationhood and he is systematically challenging the nato alliance as well as the united states so far he is winning
