this work investigates the close relationship between language and culture it explains key concepts such as social context and cultural authenticity using insights from fields which includes linguistics sociology and anthropology

the intensification of contacts between cultures and languages has a major impact on all social spheres today multiculturalism and multilingualism are important elements of the local regional national and global community much of the world's conflict stems from the contrast between globalization and nationalism fuelled by religions racial divisions traditions and other cultural particularities focusing mainly on the situation in central and south eastern europe this book addresses how cultural identities develop through tourism education literature and other social fields and how language and literature teaching should be planned in this context it consists of the following sections language culture and tourism interculturalism multilingualism and approaches to language learning and culture in literature and translation the volume will be of interest to teachers and researchers of cultural and tourism studies linguistics and language learning literary studies and translation while also addressing wider readers interested in contemporary intercultural society

the book presents a new theory of the relationship between language and culture in a transnational and global perspective the fundamental view is that languages spread across cultures and cultures spread across languages or in other words that linguistic and cultural practices flow through social networks in the world along partially different paths and across national structures and communities

this volume offers novel insights into linguistic diversity in the domains of spatial and temporal reference searching for uniformity amongst diversity a number of authors discuss expression of dynamic spatial relations cross linguistically in a vast range of typologically different languages such as bezhta french hinuq italian japanese polish serbian and spanish among others the contributions on linguistic expression of time all shed new light on pertinent questions regarding this cognitive domain such as the hotly debated relationship between cross linguistic differences in talking about time and universal principles of utterance interpretation modelling temporal inference through aspectual interactions as well as the complexity of the

acquisition of tense aspect relations in a second language the topic of space and time in language and culture is also represented from a different point of view in the sister volume space and time in languages and cultures language culture and cognition hcp 37 which discusses spatial and temporal constructs in human language cognition and culture in order to come closer to a better understanding of the interaction between shared and individual characteristics of language and culture that shape the way people interact with each other and exchange information about the spatio temporal constructs that underlie their cognitive social and linguistic foundations

language not only expresses identities but also constructs them starting from that point language and identity examines the interrelationships between language and identities it finds that they are so closely interwoven that words themselves are inscribed with ideological meanings words and language constitute meanings within discourses and discourses vary in power the powerful ones reproduce more powerful meanings colonize other discourses and marginalize or silence the least powerful languages and cultures language and culture death occur in extreme cases of marginalization this book also demonstrates the socio economic opportunities offered by language choice and the cultural allegiances of language where groups have been able to create new lives for themselves by embracing new languages in new countries language can be a double edged sword of opportunity and marginalization language and identity argues that bilingualism and in some cases multilingualism can both promote socio economic opportunity and combat culture death and marginalization with sound theoretical perspectives drawing upon the work of bakhtin vygotsky gumperz foucault and others this book provides readers with a rationale to redress social injustice in the world by supporting minority linguistic and cultural identities and an acknowledgement that access to language can provide opportunity

this state of the art exploration of language culture and identity is orchestrated through prominent scholars and teachers narratives each weaving together three elements a personal account based on one or more memorable or critical incidents that occurred in the course of learning or using a second or foreign language an interpretation of the incidents highlighting their impact in terms of culture identity and language the connections between the experiences and observations of the author and existing literature on language culture and identity what makes this book stand out is the way in which authors meld traditional academic approaches to inquiry with their own personalized voices this opens a window on different ways of viewing and doing

research in applied linguistics and tesol what gives the book its power is the compelling nature of the narratives themselves telling stories is a fundamental way of representing and making sense of the human condition these stories unpack in an accessible but rigorous fashion complex socio cultural constructs of culture identity the self and other and reflexivity and offer a way into these constructs for teachers teachers in preparation and neophyte researchers contributors from around the world give the book broad and international appeal

these papers from the 24th annual meeting of baal have been selected for the diversity of perspective which they offer on the theme of language and culture and on the way in which they reflect current thinking on the interdependence of language use and situational context

the routledge handbook of language and culture presents the first comprehensive survey of research on the relationship between language and culture it provides readers with a clear and accessible introduction to both interdisciplinary and multidisciplinary studies of language and culture and addresses key issues of language and culturally based linguistic research from a variety of perspectives and theoretical frameworks this handbook features thirty three newly commissioned chapters which cover key areas such as cognitive psychology cognitive linguistics cognitive anthropology linguistic anthropology cultural anthropology and sociolinguistics offer insights into the historical development contemporary theory research and practice of each topic and explore the potential future directions of the field show readers how language and culture research can be of practical benefit to applied areas of research and practice such as intercultural communication and second language teaching and learning written by a group of prominent scholars from around the globe the routledge handbook of language and culture provides a vital resource for scholars and students working in this area

globalization is a complex phenomenon that has deep ties in the past movement of people and ideas around the world while many people voice the fear that the power of western culture and in particular american culture will overwhelm or even obliterate indigenous cultures and languages this author argues that the impact of culture is never a one way street the interconnectedness of the modern world allows input from the united states to the rest of the world and at the same time allows the movement of ideas and people from faraway countries to our shores book jacket

language and culture in mathematical cognition first edition focuses on the role of linguistic and cultural factors in math cognition and development it covers a wide range of topics including analogical mapping in numerical development arithmetic fact retrieval in the bilingual brain cross cultural comparisons of mathematics achievement the shaping of numerical processing by number word construction the influence of head start programs the mathematical skills of children with specific language impairments the role of culture and language in creating associations between number and space and electrophysiological studies of linguistic traces in core knowledge at the neural level includes cutting edge findings innovative measures recent methodological advances and groundbreaking theoretical developments synthesizes research from various subdomains of math cognition research covers the full complement of research in mathematical thinking and learning informs researchers scholars educators students and policymakers

this book aims to present the results of research in the sphere of business language and culture as well as the experience of pedagogical staff and practitioners concerned with broadly understood business the highly complex nature of contemporary business environment approached from both the theoretical and practical standpoint does not cease to prove that research into business studies cannot be dissociated from the cultural and linguistic context the chapters included in this book were contributed by academics and practitioners alike which offers a balanced approach to the topic and ensures high levels of diversity together with an undeniable homogeneity they were gathered with a view to show various aspects of business language perceived both as a medium of communication and as a subject of research and teaching they are concerned with business culture as well including business ethics and representations of business in popular culture owing to its multidisciplinary approach the book presents a roadmap towards successful functioning in business settings highlighting such issues as education for business purposes the study of language used in business contexts the aspects of cross cultural communication as well as ethical behaviour based upon different values in multicultural business environments given its multifarious character the book surely appeals not only to academics but also to the interested laymen and students who wish to expand their knowledge of business studies and related phenomena

this is a core introduction to the most innovative and influential writings to have shaped and defined the relations between language culture and cultural identity

this volume seeks to answers such questions as how is conscious experience translated into discourse how are foregrounding and backgrounding accomplished what is the function of features like lexical choice and referential choice and many more

language our primary tool of thought and perception is at the heart of who we are as individuals languages are constantly changing sometimes into entirely new varieties of speech leading to subtle differences in how we present ourselves to others this revealing account brings together eleven leading specialists from the fields of linguistics anthropology philosophy and psychology to explore the fascinating relationship between language culture and social interaction a range of major questions are discussed how does language influence our perception of the world how do new languages emerge how do children learn to use language appropriately what factors determine language choice in bi and multilingual communities how far does language contribute to the formation of our personalities and finally in what ways does language make us human language culture and society will be essential reading for all those interested in language and its crucial role in our social lives

this volume offers diverse perspectives on language and culture teaching explored against the background of a fast paced globalized world of increased mobility and opportunity while teachers are pressed to reinvent and adapt the existing teaching practices researchers are invited to conduct studies with a view of implementing the findings in the classroom practice this collection presents discussions of different aspects of foreign language instruction language skills and learning strategies and foreign languages in professional contexts as well as the role of intercultural competence in language teaching and teacher education offering insights into a variety of foreign language and culture teaching contexts throughout europe this volume will be of interest to researchers and practitioners in applied linguistics and language and culture teaching methodology including both experienced and novice language teachers in the balkan region and beyond

this book examines the linkage between literacy and linguistic diversity embedding them in their social and cultural contexts it illustrates that a more complete understanding of literacy among diverse populations and in multicultural societies requires attention to issues of literacy per se as well as to improving an educational process that has relevance beyond members of majority cultures and linguistic groups the focus of the book is on the social and cultural contexts in which literacy develops and is enacted with an emphasis on the north american situation educators and researchers are discovering that cognitive

approaches while very valuable are insufficient by themselves to answer important questions about literacy in heterogeneous societies by considering the implications of family school culture society and nation for literary processes the book answers the following questions in a multi ethnic context what does it mean to be literate what are the processes involved in becoming and being literate in a second language in what ways is literacy in a second language similar and in what ways is it different from mother tongue literacy what factors must be understood to better describe and facilitate literacy acquisition among members of ethnic and linguistic minorities what are some current approaches that are being used to accomplish this these are vital questions for researchers and educators in a world that has a large number of immigrants a variety of multi ethnic and multi lingual societies and an increasing degree of multinational activity beyond addressing applied concerns attending to these questions can provide new insights into basic aspects of literacy

this book provides a practical but scientifically grounded step by step approach to the adaptation of tests in linguistic and cultural contexts

the routledge handbook of language and intercultural communication provides a comprehensive historical survey of language and intercultural communication studies with a critical assessment of past and present theory research and practice as well as an insight into future directions drawing on the expertise of leading scholars from different parts of the world this second edition offers updated chapters by returning authors and many new contributions on a broad range of topics including reflexivity and criticality translanguaging and social justice in relation to intercultural communication with an emphasis on contemporary critical perspectives this handbook showcases the varied range of issues perspectives and approaches that characterise this increasingly important field in today s globalised world offering 34 chapters with examples from a variety of languages and international settings this handbook is an indispensable resource for students and scholars working in the fields of intercultural communication applied linguistics tesol tefl and communication studies

this revised and expanded edition provides a comprehensive overview of comparative indo european linguistics and the branches of the indo european language family covering both linguistic and cultural material now offering even greater coverage than the first edition it is the definitive introduction to the field updated corrected and expanded edition containing

new illustrations of selected texts and inscriptions and text samples with translations and etymological commentary extensively covers individual histories of both ancient and modern languages of the indo european family provides an overview of proto indo european culture society and language designed for use in courses with exercises and suggestions for further reading included in each chapter includes maps a glossary a bibliography and comprehensive word and subject indexes
