the focus of this thesis is the application of data envelopment analysis to understand and evaluate the performance of diverse animal welfare organizations across the united states the results include identification of the most efficient animal welfare organizations at least among those that post statistics on their operations and a discussion of various partnerships that may improve the performance of the more inefficient organizations the humane society of the united states estimates that there are 4000 6000 independently run animal shelters across the united states with an estimated 6 8 million companion animals entering them each year unfortunately more than half of these animals are euthanized the methods shared in this research illustrate how data envelopment analysis may help shelters improve these statistics through evaluation and cooperation data envelopment analysis dea is based on the principle that the efficiency of an organization depends on its ability to transform its inputs

into the desired outputs the result of a dea model is a single measure that summarizes the relative efficiency of each decision making unit dmU when compared with similar organizations the dea linear program defines an efficiency frontier with the most efficient animal shelters that are put into the model that envelops the other dmUs individual efficiency scores are calculated by determining how close each dmU is to reaching the frontier the results shared in this research focus on the performance of 15 animal shelters lack of standardized data regarding individual animal shelter performance limited the ability to review a larger number of shelters and provide more robust results various programs are in place within the united states to improve the collection and availability of individual shelter performance specifically the asilomar accords provide a strong framework for doing this and could significantly reduce euthanasia of companion animals if more shelters would adopt the practice of collecting and reporting their data in this format it is demonstrated in this research that combining performance data with financial data within the data envelopment analysis technique can be powerful in helping shelters identify how to better deliver results the addition of data from other organizations will make the results even more robust and useful for each shelter involved

explains the no kill movement tracing the history of animal sheltering and describing what can be done for homeless dogs and cats by shelters without the need to kill them

animal behavior for shelter veterinarians and staff presents and evaluates the available research and programs that address both animal and human behaviors associated with the intake management and rehoming of dog and cats introductions to dog and cat behavior relevant to any animal professional reviews behavioral reasons for the relinquishment of dogs and cats describes intake and assessment protocol shelter design training and enrichment programs that reduce stress and enhance behavioral well being concepts to improve the adoption process and support the human animal bond post adoption

with animal shelter heroes you will get an overview of the past present and potential future of animal shelters across the nation as well as some inspiration in the form of success stories organizations and people who have done great things to promote better treatment and care for shelter animals

there are many animals within the united states that don't have a home fortunately there are many animal shelters across the country that can take them in and help them find

loving owners this book provides a detailed look at the many ways these shelters care for our animal buddies

how we can save 5 000 000 lives a year here is the first comprehensive review of a survival issue that touches the lives of a majority of americans but hasn't yet won as much of our active concern as it deserves nearly six out of ten u s households own at least one dog or cat as the new century began over 130 000 000 pets were sharing our lives yet every year an estimated 5 000 000 shelter orphans healthy lovable young animals who would make happy and devoted pets are doomed to premature death simply for want of sufficient homes what can all of us who keep and care about companion animals do to save the lives of those surplus dogs cats puppies and kittens a great deal but until now there's been no single accessible source to enlighten america's pet owning public on the many large and small ways we can help this informal and inclusive guide written by a fellow pet owner with no institutional affiliation focuses on three prime areas in which thoughtful dog and cat lovers can make a dramatic difference how we acquire our pets how scrupulously we manage their birth control and perhaps most important today how committed we are to keeping them with us for life the american humane association in reviewing the pet surplus on its site said if you ever wondered what you could do to help animals this book provides a clear and concise path towards making a difference seidman does a remarkable job of capturing the essence of humane work and offers simple solutions that pet owners or potential pet owners can follow to help alleviate the pet population problem in this country the book also summarizes many key humane issues and may serve as a refresher for those working in the humane field if books like this could be gotten into the right hands more strides could be made to make the world a better place for our domestic companions a review in the winter 2002 issue of the aspca's magazine animal watch said as well researched and readable a text as you could hope to find on this subject pet surplus is also full of surprises if there's new stuff here for savvy dog and cat people and there is imagine how useful it will be for that friend or neighbor you'd love to enlighten better get two copies a review in spay usa's autumn 2001 newsletter by the organization's director esther mechler said if they are willing to read you can save your breath and give them susan seidman's new book the pet surplus full of interesting information a review in the march april 2002 issue of animal sheltering the magazine for shelter professionals published by the humane society of the united states said an excellent publication for the general public encouraging private citizens to become effective armchair activists for the sake of their own

pets and the animals in shelters the book will be an eye opener a review in the october 2002 issue of animal people said public policy could be based on her numbers her writing style is lucid her experiences as a petkeeper for about 50 years both typical and revealing timing may be on her side more of the public than ever before may at last be ready to sit down and read an entire book about pet overpopulation table of contents foreword why and for whom this book was written chapter 1 supply and demand the sunny side of the picture the shadow population a short history progress to date a partial solution where do we go from here chapter 2 acquisition right and wrong decisions is now the right time which kind of pet is best for you why not a purebred rejects and defects the feline fancy breed rescue where to find the new pet the shelter option chapter 3 birth control an unmistakable trend a few facts of life benefits for everyone excuses excuses going public the feral cat challenge three approaches ho
