sober and well informed a careful and compelling examination of the u s chinese relationship from a number of angles financial times there may be no denying china s growing economic strength but its impact on the global balance of power remains hotly contested political scientist aaron l friedberg argues that our nation s leaders are failing to act expeditiously enough to counter china s growing strength he explains how the united states and china define their goals and reveals the strategies each is now employing to achieve its ends friedberg demonstrates in this provocative book that the ultimate aim of chinese policymakers is to win without fighting displacing the united states as the leading power in asia while avoiding direct confrontation the united states on the other hand sends misleading signals about our commitments and resolve putting us at risk for a war that might otherwise have been avoided a much needed wake up call to u s leaders and policymakers a contest for supremacy is a compelling interpretation of a rivalry that will go far to determine the shape of the twenty first century

the fabric of cultures examines the impact of fashion as a manufacturing industry and as a culture industry that shapes identities of nations and cities in a cross cultural perspective and within a global framework

this book explores how the concept of competition which is usually associated with market economies operated under state socialism in the soviet union and eastern europe where the socialist system based on command economic planning and state centred control over society was

supposed to emphasise co operation rather than competitive mechanisms the book considers competition in a wider range of industries and social fields across the soviet bloc and shows how the gradual adoption and adaptation of western practices led to the emergence of more open competitiveness in socialist society the book includes discussion of the state s view of competition and focuses especially on how competition operated at the grassroots level it covers politico economic reforms and their impact both overall and at the enterprise level competition in the cultural sphere and the huge effect of increasing competition on socialist ways of thinking

china has made remarkable and rapid progress in the area of science communication both in theory and practice this book critically examines all aspects of science communication practices in china dealing with major turning points since the introduction of the science and technology popularization law and the outline of the national scheme for scientific literacy the book tells a success story by scrutinizing structural changes in science communication policies education system construction and efficacious utilisation of science popularisation facilities and creative use of a mix of traditional and modern channels of communication the book also gives an in depth analysis of the monitoring and evaluation mechanism which constitutes the backbone of the national science communication project the historical roots of science communication in china include shifts in methodologies policy instruments effectual approaches and resultant practices since the days of initial efforts to popularise modern scientific ideas however the primary focus of the book remains on the initiatives launched at the turn of the present century without losing sight of the national dimensions each chapter of the book draws from provincial as well as grassroots level experiences quantitative and qualitative methods have been used to analyse strengths weaknesses hurdles and the efficacy of corrective measures this book offers a remarkable insight to anyone who is interested in probing the causal relationship between science communication and china s transformation into a modern society the primary objective of the book is to analyse the nature of science communication with chinese characteristics and the specificity of the socio cultural environment in which science and technology is located though the book is of particular interest to scholars researchers students and practitioners of science communication the narrative style makes it accessible to the general reader who is interested in science society relationship
