this book devotes to new approaches in interactive mobile technologies with a focus on learning interactive mobile technologies are today the core of many if not all fields of society not only the younger generation of students expects a mobile working and learning environment and nearly daily new ideas technologies and solutions boost this trend to discuss and assess the trends in the interactive mobile field are the aims connected with the 14th international conference on interactive mobile communication technologies and learning imcl2021 which was held online from 4 to 5 november 2021 since its beginning in 2006 this conference is devoted to new approaches in interactive mobile technologies with a focus on learning nowadays the imcl conferences are a forum of the exchange of new research results and relevant trends as well as the exchange of experiences and examples of good practice interested readership includes policy makers academics educators researchers in pedagogy and learning theory school teachers learning industry further education lecturers etc

patients often are asked to fill out questionnaires before or after going to the doctor's office or hospital what is the point of these questionnaires why do the questions often seem irrelevant does it matter if patients fill them out or ignore them this book addresses these questions while also providing historical context about how these questionnaires became so popular these questionnaires which philosopher leah m. mcclimans calls patient centered measures have a fascinating history that combines the contemporary emphasis in medical ethics on patient centered care with the contemporary preoccupation with evidence based medicine the idea that medical decisions should be based on empirical evidence patient centered measures sit between these two concerns and thus serve as an excellent example of a medical technology for the twenty first century

when political actors respond to criticism by pointing at an inconsistency in the critic's position a tricky political practice emerges turning the criticism back to the critic can be a constructive move that restores coherence but it may also be a disruptive move that silences the critical voice and obstructs accountability what distinguishes constructive cases from disruptive ones this is the question this book sets out to answer the question is addressed by adopting an argumentative perspective argumentation in prime minister's question time focuses on the turnabout employed by the British prime minister in response to the leader of the opposition the turnabout is characterised as a particular way of strategic manoeuvring the manoeuvring is analysed and evaluated by combining pragmatic dialectical and rhetorical insights with considerations from the realm of politics the outcome is an account of the turnabout's strategic functions and an assessment guide for evaluating its reasonableness the book will be of interest to advanced students and researchers of argumentation discourse analysis communication and rhetoric
