this textbook will thus not only help you to acquire language skills in colloquial tibetan it will simultaneously introduce you to a whole new manner of thinking and viewing yourself and the world unlike all other spoken tibetan language textbooks that i m aware of this one almost does not make use of grammatical terms and categories commonly used in european languages instead you will become familiar with the notions logic and categorizations that are used by tibetans themselves namely the all pervasive notion of self and other ཁོ་ཁོ་ཁོ་ཁོ་ volitional and non volitional གྲོ་བ་ གྲོ་བ་ གྲོ་བ་ གྲོ་བ་ གྲོ་བ་ གྲོ་བ་ གྲོ་བ་ གྲོ་བ་ etc in this way you too will eventually come to understand the tibetan mindset being a strong advocate of such an approach is not personal philosophy and preference it is more importantly the fruit of teaching tibetan language from such a point of view over the past seven years the response of all of my students to such approach has been extremely positive you may still ask why bother to learn all these new categories as you will soon realize the tibetan language is very particular letters have genders an honorific language register is used for certain people and even sacred places and buildings and the use of an auxiliary indicates whether or not the speaker has direct experience of what is being said none of this exists in the english language and there are therefore no english grammatical categories for such functions learning all of these differences may seem like a headache initially but they are profound and fascinating and i trust you will come to enjoy putting the puzzle pieces together
