introduction to corrections provides students with an understanding of basic concepts in the field of corrections the book offers comprehensive coverage of both institutional and community corrections with particular emphasis on the perspective of the practitioner students taking corrections classes often have wild misconceptions about prison work and the corrections environment misconceptions typically derived from movies and the news and even current textbooks in this new text robert hanser uses his own on the ground experience to colorfully explain how the corrections system actually works and what s it s like to be a part of it a practioner scholar and experienced teacher whose research has focused on gangs domestic violence and corrections hanser introduces students to the correctional worker s complex world of sub cultural norms the impact of prisoner classification and assessment and both the theory and legal elements affecting corrections systems today

a collection of all my internet blogs as of august 2009

mysteries and secrets revealed uncovers the reality behind mysteries of nature and secrets of frauds that eluded common understanding the journey begins in the ancient greek city of delphi where priests claimed the gift of a priceless gold lion was an acknowledgement of their clairvoyant powers but their concocted story concealed an embarrassing blunder those sufficiently savvy to catch the lie became aware of even deeper problems author loren pankratz then guides us through the conflicts of renaissance scholars including galileo who explained things in ways that enraged philosophers and infuriated priests galileo s methods of investigation were perpetuated by the meticulous work of the academy of experiment and

bernard fontenelle's enthralling dialogue enabled common people to accept life in the rearranged sun centered universe clairvoyants in a mesmeric trance claimed they could visit distant planets and endure brutal surgical procedures if any of this was real how was it possible one nineteenth century mesmeric savant alexis didier was so convincing that someone claimed no case of clairvoyance could be made for anyone if his accomplishments were not real this unchallenged declaration is now unraveled here for the first time through information gleaned from uncommon documents and rare antiquarian pamphlets the surprising manifestations of modern spiritualism quickly escalated into a psychic arms race that included mysterious tipping and turning of tables scientist michael faraday devised ingenious experiments to show how subtle muscle reactions outside of awareness created these manifestations on the other hand explanations for table levitations and mysterious writing on slates could only be solved by individuals with acute observational skills and acquainted with the methods of trickery each story in mysteries and secretsrevealed captures the tension of conflict the thrill of discovery and the strategies of science that unmasked frauds fakes false belief and the enigmas of our natural world

during the late nineteenth and early twentieth centuries americans were fascinated with fraud p t barnum artfully exploited the american yen for deception and even mark twain championed it arguing that lying was virtuous insofar as it provided the glue for all interpersonal intercourse but deception was not used solely to delight and many fell prey to the schemes of con men and the wiles of spirit mediums as a result a number of experimental psychologists set themselves the task of identifying and eliminating the illusions engendered by modern commercial life by the 1920s however many of these same psychologists had come to depend on deliberate misdirection and deceitful stimuli to support their own experiments the science of deception explores this paradox weaving together the story of deception in american commercial culture with its growing use in the discipline of psychology michael pettit reveals how deception came to be something that psychologists not only studied but also employed to establish their authority they developed a host of tools the lie detector psychotherapy an array of personality tests and more for making deception more transparent in the courts and elsewhere pettit's study illuminates the intimate connections between the scientific discipline and the marketplace during a crucial period in the development of market culture with its broad research and engaging tales of treachery the science of deception will appeal to scholars and general readers alike

most managers hold a common set of beliefs that prevent them from helping their employees perform its time to overcome your destructive behavior or stop it from developing in the first place if you are a business student youll find tips and strategies

to bring about positive change for your future employer there is also plenty of information to help new and veteran managers avoid serious career pitfalls you'll discover ways to pick the right individuals to be on your team identify your weaknesses as a manager and fix them improve listening skills and apply what you learn tell the difference between good and bad advice with employees getting older it's also important to acknowledge that generational differences play a role in how managers approach important topics such as incentives authority and compensation take action to make the most of your leadership position and get the most out of all your employees with bastard's management advice you should have been given long ago

in a magician among the spirits Harry Houdini deftly intertwines the realms of illusion and the supernatural illuminating his complex relationship with spiritualism in the early 20th century written in a compelling narrative style that blends personal anecdotes with incisive critique the book reflects Houdini's dual identity as both a celebrated magician and a skeptic of purported spiritual phenomena his exposés of fraudulent mediums and spiritualists are not only entertaining but also serve as a cautionary tale about the exploitation of grief and the quest for answers in the unseen world marking a significant contribution to the occult literature of his time Harry Houdini born Erik Weisz was a pioneer in the world of escapology and magic renowned for his death-defying stunts his passion for debunking fraud in spiritualism stemmed from the profound personal loss of his mother for whom he sought a way to communicate beyond the grave Houdini's crusade against charlatans was deeply influenced by his own experiences making this book a powerful reflection of his life's mission to unveil the truth this book is essential reading for anyone interested in magic spiritualism or the social issues of Houdini's era it not only showcases Houdini's remarkable talents but also invites readers to ponder the boundaries between belief and illusion making it a fascinating exploration of the human condition and our desire to connect with the beyond

this book covers an array of sex crimes sex offenders and their victims it provides an in-depth examination of the role fantasy and paraphilia play in the production of sex offending while many paraphilia may not be considered criminal others can be viewed as preparatory behavior that become foundational for violent sex crimes

in supernatural entertainments Simone Natale vividly depicts spiritualism's rise as a religious and cultural phenomenon and explores its strong connection to the growth of the media entertainment industry in the nineteenth century he frames the spiritualist movement as part of a new commodity culture that changed how public entertainments were produced and consumed starting with the story of the Fox sisters considered the first spiritualist mediums in history Natale follows the

trajectory of spiritualism in great britain and the united states from its foundation in 1848 to the beginning of the twentieth century he demonstrates that spiritualist mediums and leaders adopted many of the promotional strategies and spectacular techniques that were being developed for the broader entertainment industry spiritualist mediums were indistinguishable from other professional performers as they had managers and agents advertised in the press and used spectacularism to draw audiences addressing the overlap between spiritualism s explosion and nineteenth century show business natale provides an archaeology of how the supernatural became a powerful force in the media and popular culture of today

a brief introduction to corrections is a condensed version of the best selling introduction to corrections by robert d hanser this new text provides students with an overview of corrections that is both practitioner driven and grounded in modern research experienced correctional practitioner and scholar robert d hanser shows readers how the corrections system actually works from classification to security and treatment to demonstrating how and why correctional practices are implemented

designed for courses in introductory psychology this fourth edition provides pathways to learning student assessment that help in determining whether their learning style strengths are verbal linguistic logical mathematical visual spatial or interpersonal it aims to provide personalized and content specific study tips

this comprehensive survey covers every type of unexplained phenomenon from extrasensory perception to brushes with ghosts and poltergeists jacket
