this text explores how the dynamics of globalization and privatization have influenced state policy and impacted education reform in honduras it makes the argument that understanding education reform in post colonial contexts requires that scholars go beyond a surface level description of such trends as privatization to consider in addition the ways that the logics practices and relationships that characterized colonialism continue to be embedded in the apparatus of modern states the first part of the volume documents historical trends and the evolution of privatisation in honduras while the second part explicitly engages in an extended discussion of state theory before shifting to present a framework for depicting how these logics are the foundational layer upon which states and global governance have been constructed the framework draws upon scholarship from political economy world systems and post colonialism to depict the ethos of privatization at the core of post colonial states wherein what drives the system is private benefit in the interest of individuals and their networks but not in the interest of those outside the state applying this unique framework to the case of honduras and offering empirical analysis of the honduran education sector the changing role and priorities of the state and the increasing involvement of international organizations ngos and private actors in the provision of education the text increases understanding of how state theory interacts with broader global dynamics to impact education this text will benefit researchers academics and educators with a focus on international and comparative education policy analysis globalization and international development

simultaneously examining four significant never before combined case studies this unique feminist analysis offers troubling revelations about the private public interaction in u s policy affecting birth control drugs reproductive rights and the state getting the birth control ru 486 and morning after pills and the gardasil vaccine to the u s market tackles a subject that remains controversial more than 60 years after the pill was approved for use in the united states the first book to examine the politicization of the fda approval process for reproductive drugs this study maps the hard fought battles over the four major drugs currently on the u s market to make her case melissa haussman scrutinizes the history of the fda and the statutes that have governed it as well as interactions between the u s government american pharmaceutical companies and the medical community the analysis centers on explaining how three reproductive drugs were kept off the u s market well after their efficacy had been proven while the availability of the fourth gardasil has less to do with helping girls than with preserving the financial wellbeing of merck readers will come away understanding how when it comes to reproductive drugs women s health concerns have consistently taken a backseat to political agendas and corporate profits

extremism does not happen in a vacuum rather extremism is a relative concept that often emerges in crisis situations taking shape

within the tense and contradictory relations that tie marginal spaces state orders and mainstream culture this collected volume brings together leading anthropologists and cultural analysts to offer a concise look at the narratives symbolic and metaphoric fields related to extremism systematizing an approach to extremism and placing these ideologies into historical political and geo systemic contexts

gregory kasza examines state society relations in interwar japan through a case study of public policy toward radio film newspapers and magazines

this book asks readers to recognize their obligations to the punished men and women in america and to reconsider the criminal desistance literature through empowerment and assimilation

in global political economy and the modern state system tobias ten brink contributes to an understanding of the modern state system its conflicts and its transformation in contrast to the political attractiveness of optimistic theoretical approaches to globalisation this book demonstrates how an analytical approach rooted in global political economy gpe helps to explain both the tendencies towards integration and towards rivalry in international relations by way of a historical reconstruction of different world order phases in the twentieth century ten brink analyses multiple phase specific variations of socioeconomic and geopolitical conflicts that are significant for the modern capitalist world system revised edition of geopolitik geschichte und gegenwart kapitalistischer staatenkonkurrenz verlag westfälisches dampfboot münster 2008

the central question of this pioneer work on the responsibility of non state actors nsas and the consequences thereof is to whom are such actors in particular armed opposition groups and business corporations accountable for their actions in armed conflict and in peace times does responsibility in international law apply to these nsas qua groups while much has been written about nsas rights and participation in the global theatre as well as the responsibility of the state and international organisations for wrongful acts by nsas scant attention has been paid to questions of nsa organizational responsibility in spite of their potential to wreak international havoc this volume offers innovative insights into this unexplored territory by analyzing responsibility questions from both theoretical and empirical perspectives

an account of the history structure and operation of the first and second banks of the united states this study examines how the banks performed as national and central institutions and what happened to the economy when the charter of the second bank was allowed to expire in 1836 historians have paid little recent attention to the early history of central banking in the united states and many americans believe that the federal reserve created in 1913 was our first central bank the economic crisis during the american revolution actually led to the founding of a national bank called the bank of north america during the period of confederation although it became a private bank before the constitution was ratified in 1788 it proved to be such a success that in 1791 alexander

hamilton the first secretary of the treasury was able to convince president washington that a similar bank should be established while the first bank of the united states performed well during its tenure its charter was allowed to lapse in 1811 a second bank of the united states was created five years later in 1816 and it prospered under the leadership of its third president nicholas biddle from 1823 to 1830 when central banking was practiced this success ended with the 1828 election of andrew jackson who refused to recharter the bank and withdrew the government's funds in 1833 severely weakened the bank continued but its charter finally expired in 1836 much to biddle's dismay

contributors to this volume highlight the failure and socio economic and political problems of post colonial african state and make constructive and convincing suggestions of how the problems can be addressed they do not argue for the scrapping of the state but its reconstitution in ways that will enable it to be people's oriented

is commitment to god compatible with modern citizenship in this book daniel h weiss provides new readings of four modern jewish philosophers moises mendelssohn hermann cohen franz rosenzweig and walter benjamin in light of classical rabbinic accounts of god's sovereignty divine and human violence and the embodied human being as the image of god he demonstrates how classical rabbinic literature is relevant to contemporary political and philosophical debates weiss brings to light striking political aspects of the writings of the modern jewish philosophers who have often been understood as non political in addition he shows how the four modern thinkers are more radical and more shaped by jewish tradition than has previously been thought taken as a whole weiss book argues for a fundamental rethinking of the relationship between judaism and politics the history of jewish thought and the ethical and political dynamics of the broader western philosophical tradition

the united states routinely has one of the lowest voter turnout rates of any developed democracy in the world that rate is also among the most internally diverse since the federal structure allows state level variations in voting institutions that have had and continue to have sizable local effects but are expansive institutional efforts like mail in registration longer poll hours and no excuse absentee voting uniformly effective in improving voter turnout across states with how the states shaped the nation melanie jean springer places contemporary reforms in historical context and systematically explores how state electoral institutions have been instrumental in shaping voting behavior throughout the twentieth century although reformers often assume that more convenient voting procedures will produce equivalent effects wherever they are implemented springer reveals that this is not the case in fact convenience voting methods have had almost no effect in the southern states where turnout rates are lowest in contrast the adverse effects associated with restrictive institutions like poll taxes and literacy tests have been persistent and dramatic ultimately springer argues no single institutional fix will uniformly resolve problems of low or unequal participation if we want to reliably increase national voter turnout rates we must explore how states voting histories differ and better understand the role of political and geographical context in shaping institutional effects
