getting started provides answers to questions that confront all beginning therapists such as how do i start what do i say what if the client challenges me what if the client is silent how do i deal with fees what about confidentiality how should i end the sessions it also answers those

fundamental general concerns like how does psychotherapy work how can i be helpful to my patients many books claim to be simply written and easy for an inexperienced therapist to understand this one really is it is user friendly and written with a minimum of jargon dr joel kotin gives numerous examples of common situations and problems that therapists regularly encounter and then tells the reader how to approach them dr kotin's tone is reassuring and supportive throughout

writing the barbarian past examines the presentation of the non roman pre christian past in latin and vernacular historical narratives composed between c 550 and c 1000 the gothic histories of jordanes and isidore of seville the fredegar chronicle the liber historiae francorum paul the deacon's historia langobardorum waltharius and beowulf it also examines the evidence for an oral vernacular tradition of historical narrative in this period in this book shami ghosh analyses the relative significance granted to the roman and non roman inheritances in narratives of the distant past and what the use of this past reveals about the historical consciousness of early medieval elites and demonstrates that for them cultural identity was conceived of in less binary terms than in most modern scholarship

reprint of the original first published in 1866

index of archaeological papers published in 1891 under the direction of the congress of archaeological societies in union with the society of antiquaries

roman law forms an important part of the intellectual background of many legal systems currently in force in continental europe latin america and other parts of the world this book traces the historical development of roman law from the earliest period of roman history up to and including justinian's codification in the sixth century ad it examines the nature of the sources of law forms of legal procedure the mechanisms by which legal judgments were put into effect the development of legal science and the role of the jurists in shaping the law the final chapter of the book outlines the history of roman law during the middle ages and discusses the way in which roman law furnished the basis of the civil law systems of continental europe

the book combines the perspectives of legal history with those of social political and economic history special attention is given to the political development of the roman society and to the historical events and socio economic factors that influenced the growth and progress of the law designed to provide a general introduction to the history of roman law this book will appeal to law students whose course of studies includes roman law legal history and comparative law it will also prove of value to students and scholars interested in ancient history and classics

eight prominent historians and social scientists give their perspectives on the fate of marxist approaches to history and the direction of the discipline in coming decades the volume offers rigorous and approachable analysis from several political and intellectual positions and will be an important contribution to current historical debates

non human primates hereafter just primates play a special role in human societies especially in regions where modern humans and primates co exist primates feature in myths and legends and in traditional indigenous knowledge explorers observed them in the wild and brought them at great cost to europe there they were valued as pets and for display their images featured in art and architecture and where they were literally teased apart by scientists the international team of contributors to this book draws these different perspectives together to show how primates helped humans better understand their own place in nature the book will be of interest to undergraduate and graduate students as well scholars in disciplines ranging from anthropology to art history key features includes contributions from an international team of historians and natural scientists integrates various perspectives and perceptions of non human primates across time and place summarizes the place of non human primates in science art and culture includes rare early illustrations

with this book knee arthroscopy dr brian mckee dr james bono and dr john richmond and their selected contributors have carefully amassed a compendium of chapters well suited for the general orthopaedist as well as for the accomplished knee surgeon auth ing and editing a textbook as well as contributing chapters reflect an unselfish dedication to the education of

others the inclusion of selected case reports in the chapters adds a unique feature that brings the reader back to the more pragmatic aspects of patient care the authors and editors have combined a careful and unbiased review of the literature on each subject with a synopsis of current thinking and suggested pathways for the reader c prehensive references and illustrations complement the text and add to the clarity of the topics the selection of topics represents a comprehensive and complete array of almost every knee condition from simple to complex the reader is able to use selective components of the review to tailor his or her treatment regiments to a vast array of clinical conditions this book will be a stable and enduring reference for years to come

in recent years a number of new testament scholars engaged in academic historical jesus studies have concluded that such scholarship cannot yield secure and illuminating conclusions about its subject arguing that the search for a historically authentic jesus has run aground jesus skepticism and the problem of history brings together a stellar lineup of new testament scholars who contend that historical jesus scholarship is far from dead these scholars all find value in using the tools of contemporary historical methods in the study of jesus and christian origins while the skeptical use of criteria to fashion a jesus contrary to the one portrayed in the gospels is methodologically unsound and theologically unacceptable these criteria properly formulated and applied yield positive results that support the gospel accounts and the historical narrative in acts this book presents a nuanced and vitally needed alternative to the skeptical extremes of revisionist jesus scholarship that on the one hand uses historical methods to call into question the jesus of the gospels and on the other denies the possibility of using historical methods to learn about jesus

netter s sports medicine by christopher c madden md margot putukian md facsm craig c young md and eric c mccarty md is a reference designed to help you meet the challenges presented by your patients in this growing interdisciplinary field more than 1 000 netter images along with photos of physical examination techniques and imaging examples provide a rich visual understanding while a bulleted text format combined with a user friendly organization by
