in march 2005 the nasa history division and the division of space history at the national air and space museum brought together a distinguished group of scholars to consider the state of the discipline of space history this volume is a collection of essays based on those deliberations the meeting took place at a time of extraordinary transformation for nasa stemming from the new vision of space exploration announced by president george w bush in january 2004 to go to the moon mars and beyond this vision in turn stemmed from a deep reevaluation of nasa's goals in the wake of the space shuttle columbia accident and the recommendations of the columbia accident investigation board the new goals were seen as initiating a new age of exploration and were placed in the context of the importance of exploration and discovery to the american experiences amazon

rainer eisfeld's book highlights the merits of socio historical research into topics infrequently covered by mainstream political science directing attention to the need for carefully scrutinizing the convenient truths of established post nazi post communist political narratives its chapters encourage reflection of the discipline's history and state of the art a companion volume to the 2012 book entitled radical approaches to political science roads less traveled also published by barbara budrich this collection is likewise based on an approach to political science informed by a theory of participatory pluralism and grounded in history the chapters focus on the discipline's fragmentation and its retreat from public debate on the varying roles of political science and international relations as champions of more or less democracy on normative and analytical concepts developed by hannah arendt klaus von beyme and robert a dahl on the deconstruction of the peenemünde legend about the unspoiled rule of science at the third reich's missile development center on reasons for the peenemünde engineers actual complicity in the exploitation of concentration camp labor to mass produce their v 2 missile rainer eisfeld's leadership in the fields of pluralism and analysis of the discipline in the international political science association means that he has quite a background to share with us in this his most recent collection of essays john trent

this volume offers a media theoretically oriented perspective on the space race it analyzes feature films documentaries live television coverage magazines stamps posters ticker tape parades they visualized the space race in a specific way and circulated it transnationally from east to west and from west to east across the iron curtain it will be shown how reporting on the space race between 1955 and 1975 can be explained as a globalizing history of the intertwining of images during the cold war

since the dawn of spaceflight advocates of a robust space effort have argued that human activity beyond earth makes a significant difference in everyday life assertions abound about the impact of spaceflight on society and its relationship to the larger contours of human existence fifty years after the space age began it is time to examine the effects of spaceflight on society in a historically rigorous way has the space age indeed had a significant effect on society if so what are those influences what do we mean by an impact on society and what parts of society conversely has society had any effect on spaceflight what would be different had there been no space age the purpose of this volume is to examine these and related questions through scholarly research making use especially of the tools of the historian and the broader social sciences and humanities herein a stellar array of scholars does just that and arrives at sometimes surprising conclusions

the ancient alien theory part eight and ancientalienpedia.com are both a written and online resource the written guide serves as an opportunity to log out shut down and unplug from the online world the online guide serves as a gateway to the ancient alien theory with links to online sources books and authors just as bill birnes created the ufo magazine encyclopedia to provide a comprehensive guide to ufos and extraterrestrial contact [ancientalienpedia](http://ancientalienpedia.com) is providing a database to the ancient alien theory this all inclusive guidebook saves readers countless of hours of searching for this information which is scattered across hundreds of websites and books the [ancientalienpedia](http://ancientalienpedia.com) will prove to be an essential reference for the highly controversial ancient alien theory

from the mid 1950s onwards the rise of television as a mass medium took place in many east and west european

countries as the most influential mass medium of the cold war television triggered new practices of consumption and media production and of communication and exchange on both sides of the iron curtain this volume leans on the long neglected fact that even during the cold war era television could easily become a cross border matter as such it brings together transnational perspectives on convergence zones observations collaborations circulations and interdependencies between eastern and western television in particular the authors provide empirical ground to include socialist television within a european and global media history historians and media cultural and literary scholars take interdisciplinary perspectives to focus on structures actors flow contents or the reception of cross border television their contributions cover albania the cssr the gdr russia and the soviet union serbia slovenia and yugoslavia thus complementing western dominated perspectives on cold war mass media with a specific focus on the spaces and actors of east european communication last but not least the volume takes a long term perspective crossing the fall of the iron curtain as many trends of the post socialist period are linked to or pick up socialist traditions

imagining outer space makes a captivating advance into the cultural history of outer space and extraterrestrial life in the european imagination how was outer space conceived and communicated what promises of interplanetary expansion and cosmic colonization propelled the project of human spaceflight to the forefront of twentieth century modernity in what way has west european astroculture been affected by the continuous exploration of outer space tracing the thriving interest in spatiality to early attempts at exploring imaginary worlds beyond our own the book analyzes contact points between science and fiction from a transdisciplinary perspective and examines sites and situations where utopian images and futuristic technologies contributed to the omnipresence of fantasmatic thought bringing together state of the art work in this emerging field of historical research the volume breaks new ground in the historicization of the space age

besides walt disney no one seemed more key to the development of animation at the disney studios than ward kimball 1914 2002 kimball was disney s friend and confidant in this engaging cradle to grave biography award winning author todd james pierce explores the life of ward kimball a lead disney animator who worked on characters such as mickey

mouse donald duck jiminy cricket the cheshire cat and the mad hatter through unpublished excerpts from kimball's personal writing material from unpublished interviews and new information based on interviews conducted by the author pierce defines the life of perhaps the most influential animator of the twentieth century as well as contributing to classics such as snow white and the seven dwarfs and pinocchio from the late 1940s to the early 1970s kimball established a highly graphic idiosyncratic approach to animation alongside the studio's more recognizable storybook realism in effect ward kimball became the only animator to run his own in studio production team largely outside of walt disney's direction in the 1950s and 1960s he emerged as a director and producer of his own animation while remaining inside disney's studio through kimball the studio developed a series of nonfiction animation programs in the 1950s that members of congress pointed to as paving the way for nasa the studio also allowed kimball's work to abandon some ties to conventional animation looking instead to high art and graphic design as a means of creating new animated forms which resulted in films that received multiple academy award nominations and two awards throughout his life kimball was a maverick animator an artist who helped define the field of american animation and a visionary who sought to expand the influence of animated films

he's the worst nazi war criminal you've never heard of sidekick to ss chief heinrich himmler and supervisor of nazi rocket scientist wernher von braun general hans kammler was responsible for the construction of hitler's slave labor sites and concentration camps he personally altered the design of auschwitz to increase crowding ensuring that epidemic diseases would complement the work of the gas chambers why has the world forgotten this monster kammler was declared dead after the war but the aide who testified to kammler's supposed suicide never produced the general's dog tags or any other proof of death dean reuter colm lowery and keith chester have spent decades on the trail of the elusive kammler uncovering documents unseen since the 1940s and visiting the purported site of kammler's death now in the czech republic their astonishing discovery us government documents prove that hans kammler was in american custody for months after the war well after his officially declared suicide and what happened to him after that kammler was kept out

of public view never indicted or tried but to what end did he cooperate with nuremberg prosecutors investigating nazi war crimes was he protected so the united states could benefit from his intimate knowledge of the nazi rocket program and germany s secret weapons the hidden nazi is true history more harrowing and shocking than the most thrilling fiction

on 29 july 1958 president dwight d eisenhower signed the national aeronautics and space act creating the national aeronautics and space administration nasa which became operational on 1 october of that year over the next 50 years nasa achieved a set of spectacular feats ranging from advancing the well established field of aeronautics to pioneering the new fields of earth and space science and human spaceflight in the midst of the geopolitical context of the cold war 12 americans walked on the moon arriving in peace for all mankind humans saw their home planet from a new perspective with unforgettable apollo images of earthrise and the blue marble as well as the pale blue dot from the edge of the solar system a flotilla of spacecraft has studied earth while other spacecraft have probed the depths of the solar system and the universe beyond in the 1980s the evolution of aeronautics gave us the first winged human spacecraft the space shuttle and the international space station stands as a symbol of human cooperation in space as well as a possible way station to the stars with the apollo fire and two space shuttle accidents nasa has also seen the depths of tragedy in this volume a wide array of scholars turn a critical eye toward nasa s first 50 years probing an institution widely seen as the premier agency for exploration in the world carrying on a long tradition of exploration by the united states and the human species in general fifty years after its founding nasa finds itself at a crossroads that historical perspectives can only help to illuminate
