how god reveals himself is an important matter for christians especially evangelicals for too long carisa ash contends evangelicals have rightly affirmed that god reveals through the created world but then they functionally neglect such revelation in this monograph ash offers a corrective to this practice by presenting a theology of revelation that explores the commonalities between various forms of revelation world written and spoken word and incarnate word particularly aimed at theologians interested in theological method ash s study will also benefit people interested in faith and learning or interdisciplinary integration ash argues that evangelicals must strive to align more closely their affirmations and their practice her critique of current practices in theological method and integration along with the proposed theology of revelation are designed to help move the conversation forward

the phenomenology of revelation in heidegger marion and ricoeur provides a critical framework for understanding the phenomenology of revelation through a series of close readings that serve as the basis for an imagined dialogue between martin heidegger jean luc marion and paul ricoeur adam j graves distinguishes between two dominant approaches to revelation a radical approach that seeks to disclose a pre linguistic experience of revelation through a radicalization of the phenomenological reduction and a hermeneutical one that characterizes revelation as an eruption of meaning arising from our encounter with concrete symbols narratives and texts according to graves the radical approach is often driven by a misplaced concern for maintaining philosophical rigor and for avoiding theological biases or contaminations this preoccupation leads to a process of counter contamination in which the concept of revelation is ultimately estranged from the phenomenon s rich historical and linguistic content while ricoeur s hermeneutic phenomenology may do a better job of accommodating the concrete content of revelation it does so at the price of having to renouncing the kind of presuppositionlessness generally associated with phenomenological method ultimately graves argues that a more nuanced appreciation of the complex nature of our linguistic inheritance enables us to reconceive the relationship between revelation and philosophical thought
