the covid 19 pandemic obamacare the great recession the dot com bust the early 90s recession every decade or so a disaster hits the united states and reminds us that many american families live one calamity away from financial ruin but what if there were a better way to help families protect themselves from life s risks and what if that way did not require bloated government bureaucracies increased taxes and runaway spending and debt fortunately author economist policy entrepreneur and independent institute senior fellow john c goodman ph d has forged just such a path in new way to care social protections that put families first dr goodman offers a bold but practical strategy for giving americans more control and security over their own finances and destiny while still promoting at far less expense the vital social goals that gave rise to well intended but failing government safety net programs here are just a few of the life risks to which dr goodman the father of health savings accounts according to the wall street journal presents solutions growing too old and outliving one s assets dying too young and leaving

dependent family members without resources becoming disabled and facing financial catastrophe suffering a major health event and being unable to afford needed medical care becoming unemployed and finding no market for one's skills in new way to care Dr Goodman invites us to envision smartly crafted social protections that better empower and serve the nation's families harmonize individual and societal interests foster personal responsibility and government accountability bridge the partisan divide over social spending and eliminate the risk that America's safety net expenditures will drive the U.S. economy over a fiscal cliff the debate in America over social insurance will never be the same

using tricks to handle coupled nonlinear dynamical many body systems several advancements have already been made in understanding the behavior of markets economic social systems and their dynamics the book intends to provide the reader with updated reviews on such major developments in both econophysics and sociophysics by leading experts in the respective fields this is the first book providing a panoramic view of these developments in the last decade

a vivid fast paced inside look at financial markets the people who work on them and how technology is changing their world and ours markets are messy and no one knows this better than traders who work tirelessly to predict what they will do next in whoosh goes the market Daniel Scott Souleles takes us into the day to day experiences of a team at a large trading firm revealing what it's actually like to make and lose money on contemporary capital markets the traders Souleles shadows have mostly moved out of the pits and now work with automated glitch prone computer systems they remember the days of trading manually and they are suspicious of algorithmically driven machine learning systems openly musing about their own potential extinction they spend their time expressing fear and frustration in profanity laced language with Souleles as our guide we learn about everything from betting strategies to inflated valuations trading swings and market manipulation this crash course in contemporary finance vividly reveals the existential anxiety at the evolving front lines of American capitalism

the rich and the poor in the UK are subject to radically different legislative approaches while the behaviours of the poor are relentlessly scrutinised those of the rich are ignored or enabled in this book Sarah Kerr suggests that we live in a state of wealtherty characterised by the hyper concentration of wealth and a stark distinction between the rich and the rest drawing on evidence from the 1500s onwards she reveals a long

history of government scrutiny of the poor and ignorance of the rich she contests contemporary policy and practice which disregards the enduring role of the rich in the production of poverty and poverty in the production of the rich in pursuit of social and economic justice this radical book challenges policy makers and researchers to stop talking about poverty and to start addressing the problems caused by wealthy

to understand strategy is to understand life yet few people know how to use it because they don't understand how it works that is about to change with Tony Higo's latest book *Game Plan* *Game Plan* is a unique analysis of strategies that have been used since the dawn of time separated into 25 individual stratagems that you can have at your disposal to help you understand and achieve in life martial arts master Tony Higo brings the full power of his 48 years of experience in the martial arts helping anyone understand how to use strategy in to get the most out of life *Game Plan* is your doorway to understanding how to get the most out of your life and all that it has to offer whether you're intent on world domination or simply want to land your dream job either way you need a great game plan

packed with examples this book offers a clear and engaging overview of ethical issues in business it begins with a discussion of foundational issues including the objectivity of ethics the content of ethical theories and the debate between capitalism and socialism making it suitable for the beginning student it then examines ethical issues in business in three broad areas the first is the market issues explored are what can be sold the limits of markets and how it can be sold ethics in marketing the second is work topics in this area are health and safety meaningful work compensation hiring and firing privacy and whistleblowing the third area is the firm in society here readers explore corporate social responsibility corporate political activity and the set of ethical challenges that attend international business issues are introduced through real world examples that underscore their importance and make them come alive arguments for opposing positions are given fair hearings and students are encouraged to develop and defend their own views key features introduces each topic with a real world example which is referenced regularly in the subsequent argument contains a critical evaluation of capitalism and socialism with a focus on private property the market system and the welfare state explores the limits of markets and encourages students to ask what should and should not be for sale explores the phenomena of corporate political activity and ethical consumerism includes initial chapter overviews and at the end of each chapter study questions and suggested additional readings

does poverty or wealth reside in the dna why do the rich perpetuate their wealth and poor people seem to perpetuate their financial struggles the home school of abundance expresses the power of the home in laying the right foundation for financial success if we understand that what happens to an individual can often be traced back to early childhood influences we must explore the roots of financial struggles parents and other significant others owe a responsibility to be deliberate in the process of laying that healthy blue print on which future financial experiences can be built on

this book sets out the case for hard green a conservative environmental agenda modern environmentalism peter huber argues destroys the environment captured as it has been by the soft green oligarchy of scientists regulators and lawyers modern environmentalism does not conserve forests oceans lakes and streams it hastens their destruction for all its scientific pretension soft green is not green at all its effects are the opposites of green this book lays out the alternative a return to yellowstone and the national forests the original environmentalism of theodore roosevelt and the conservation movement chapter by chapter hard green takes on the big issues of environmental discourse from scarcity and pollution to efficiency and waste disposal this is the hard green manifesto rediscover tar reaffirm the conservationist ethic expose the soft green fallacy reverse the soft green agenda save the environment from the environmentalists

originally published in 2019 this book provides a comprehensive account of a formative historical period uniquely describing renaissance architecture as the physical manifestation of political and economic change the book illustrates how shifts in architectural style and design were paralleled with northern and central italy s external and internal conflicts the evolution of urban and regional government and economic and demographic growth covering the full extent of the renaissance period balchin charts the era s medieval roots and its transformation into mannerist and baroque tendencies he demonstrates how developments in architecture and planning were inextricably linked to political and economic power and how these relationships shifted from city to city over time

this book presents readers with a clear sympathetic and unbiased perspective on the major curriculum philosophies ideologies viewpoints or visions for schooling that have exerted influence on american educators and schooling over the last century it also helps readers better

understand curricular disagreements that occur in schools determine the ideologies and intentions of other educators speak in the language of other educators while conveying their own meanings and more effectively negotiate curriculum decisions with colleagues curriculum committees school boards and their communities

mathematical modelling of systems constituted by many agents using kinetic theory is a new tool that has proved effective in predicting the emergence of collective behaviours and self organization this idea has been applied by the authors to various problems which range from sociology to economics and life sciences
