this book is a guide for teachers seeking to use multicultural literature in the

early grades it also serves as a valuable resource for classroom teachers who routinely use multicultural literature as part of their practice in addition the book is written for both undergraduate and graduate children s literature and multicultural literature courses as well as for workshops or seminars focusing on teaching preschool to grade 3 children with multicultural books starting with exploring that particular culture each chapter includes a step by step guide on how to select and evaluate literature on the culture the classroom examples then showcase strategies and activities for classroom teachers finally resources provide suggested children s books and resources for understanding the culture

in this book african american literature is illuminated through a project based curriculum that incorporates national curriculum standards it is important that the school curriculae be representative of the diversity of the american student population integrating african american literature in the library and classroom is designed to help teachers and librarians achieve that goal the book recommends and annotates more than 200 titles that touch on african american life from slavery through the present time most of them by black authors and many of them winners of the coretta scott king caldecott and or newbery awards this guide offers cross curricular lesson plans for grades k 12 each chapter identifies areas in which instructional attention is most needed to help students develop a greater appreciation for diversity perseverance and ethnicity examples and ideas for activities are offered to reinforce related concepts with this book teachers and librarians will be better able to motivate and inform helping students discover the richness of african american culture now and through time

covering the genres popular with today s teens fiction and nonfiction including poetry and graphic novels this resource provides 110 great book choices for

young adult reading interactive booktalks and individual writing activities all educators and library professionals need practical resources with easily accessible information and activities that can be immediately applied teen talkback with interactive booktalks is such a resource supplying ready to use interactive booktalks and curriculum connections for more than 100 recently published young adult books this unique book is an invaluable tool for motivating teens to read it shows how to make booktalks interactive and get teens participating in the presentation rather than passively listening book selections include titles published from 2008 to 2012 organized in seven categories issues contemporary adventure survival mystery suspense fantasy heritage and multiple cultures complete bibliographical information for each selection is included along with a literary classification as well as an age grade level and gender designation the read alouds passages include talkback questions to facilitate discussion and related works are supplied as suggestions for additional reading choices

freeman has developed a comprehensive handbook with thoroughly annotated lists of the 2005 s best childrens books lesson plans teachers guides stories songs and internet resources it includes an index

includes beginning sept 15 1954 and on the 15th of each month sept may a special section school library journal issn 0000 0035 called junior libraries 1954 may 1961 also issued separately

any quotation dictionary that includes an entry for education provides ample testimony that education is more than schools from aristotle to oscar wilde come warnings that education is no substitute for experience indeed for some critics of schooling we learn that formal education is antithetical to learning america s schools and the mass media collectively explore the contents of mass media and how it shapes educational programming and policy making

the editors claim that american schooling for the past forty years has less to do with a learning agenda and pedagogy than with economic competition and national security the editors and contributors to this important volume contend that american public schooling has historical roots as a crucible for democratic government this ideal has not only grown increasingly suspect in recent years but is now commonly assailed as a brake on both economic growth and intellectual excellence the editors ask what minimum skills and knowledge one must possess in order to participate in the life of the nation if not in the life of the mind the essays by gerald grant bella rosenberg charles t salmon joan richardson and susan tiffy take direct aim at this issue with surprising but stimulating results the volume begins with myron lieberman's law to wit the more important an educational question the less people know about it the remainder of the contributions aim to begin removing this law with a more salutary understanding the twelve essays that constitute the work deal with the interplay of educational and media institutions what students learn and how they learn it with a special emphasis on the long and questionable history of corporate special interest and government attempts to shape the beliefs of future citizens and present consumers the volume closes with a full scale effort to review the nation's educational priorities and how questions of school choice are entwined with those of media choice

this book reviews and summarizes the development and achievement in cartography and geographic information engineering in china over the past 60 years after the founding of the people's republic of china it comprehensively reflects cartography as a traditional discipline has almost the same long history with the world's first culture and has experienced extraordinary and great changes the book consists of nineteen thematic chapters each chapter is in accordance with the unified directory structure introduction development process major study achievements problem and prospect representative

works as well as a lot of references it is useful as a reference both for scientists and technicians who are engaged in teaching researching and engineering of cartography and geographic information engineering
