*as Dr Needham's immense undertaking gathers momentum it has been found necessary to subdivide volumes into parts each to be bound and published separately the first part of volume 4 already published deals with the physical sciences the second with the diverse applications of physics in the many branches of mechanical engineering and the third will deal with civil and hydraulic engineering and nautical technology with this part of volume 4 then we come to the application by the Chinese of physical principles in the control of forces and in the use of power we cross the frontier separating tools from the machine we have already noticed that the ancient Chinese concept of *chhi* somewhat similar to the *pneuma* of the Greeks asserted itself prominently in acoustics but we discover here that the Chinese tendency to think pneumatically was also responsible for a whole range of brilliant technological achievements for example the double acting piston bellows the rotary winnowing fan and the water powered metallurgical blowing machine ancestor of the steam engine as well as for some extraordinary insights and predictions in aeronautics*

democracies are fragile freedoms that seem secure can be lost few historical events illustrate this as vividly as the failure of the Weimar Republic Fateful Hours tells one of the greatest dramas in world history the failure of Germany's first democracy culminating in the horrific rise of the Third Reich but this tragedy was not inevitable in this gripping new book celebrated historian Volker Ullrich charts the

many failed alternatives and missed opportunities that contributed to german democracy's collapse in an immersive style that takes us to the heart of political power ullrich argues that right up until january 1933 history was open just as in the present it is up to us whether democracy lives or dies

asr index is a complete and detailed index of everything that has appeared in the antique studebaker review magazine since its inception in 1971 of greatest importance are the advice items that are indexed by subject engines brakes steering etc historical items are also indexed by subject as well as by the vehicle model and year they relate to if you own for instance a 1939 champion asr index will give you instant access to everything that has been published about your car and much more indexed by model year and subject matter asr index is detailed and comprehensive making it easy to find the information you need each listing of course refers you to the specific issue of antique studebaker review and cites the page on which the item begins asr index includes issues of antique studebaker review from 1971 through 2019 by subject model and year it contains more than 4 300 references on 55 pages

yugoslavia and political assassinations is the first book in english to analyse how and why the yugoslav state security service carried out multiple targeted assassinations over the country's forty six years of existence under the pretext of protecting the yugoslav communist party state offering a detailed history of the programme from the inception of the state security service to the recent trials of individuals involved it draws on christian axboe nielsen's unique wealth of experience and research as an academic and as an expert witness in numerous criminal trials the result is a ground breaking contribution to the history of targeted assassinations communist history state security services and related criminal trials

this book brings together a diverse group of theoreticians to explore architectural theory as a discipline assessing its condition and relevance to contemporary practice offering critical assessment in the face of major social and environmental issues of today 17 original contributions address the relevance of architectural theory in the contemporary world from various perspectives including but not limited to politics gender representation race environmental crisis and history the chapters are grouped into two distinct sections the first section explores various historical perspectives on architectural theory mapping theory's historiographical turn and its emergence and decline from the 1960s to the present the second offers alternative visions and new directions for architectural theory incorporating feminist and human rights perspectives and addressing contemporary issues such as artificial intelligence and the age of acceleration this edited collection features contributions from renowned scholars as well as emergent voices with a foreword by david leatherbarrow this book will be of great interest to graduate and upper level students of architecture as well as academics and practicing architects

in the 1920s the us government passed legislation against undocumented entry into the country and as a result the figure of the illegal alien took form in the national discourse in this book lisa a flores explores the history of our language about mexican immigrants and exposes how our words made these migrants illegal deportable and disposable brings a rhetorical lens to a question that has predominantly concerned historians how do differently situated immigrant populations come to belong within the national space of whiteness and thus of american ness flores presents a genealogy of our immigration discourse through four stereotypes the illegal alien a foreigner and criminal who quickly became associated with mexican migrants the bracero a docile mexican contract laborer the zoot suiter a delinquent mexican american youth engaged in gang culture and the wetback an unwanted migrant who entered the country by swimming across the rio grande by showing how these figures were constructed flores provides insight into the ways in which we racialize language and how we can transform our political rhetoric to ensure immigrant populations come to belong as part of the country as americans timely thoughtful and eye opening deportable and disposable initiates a necessary conversation about the relationship between racial rhetoric and the literal and figurative borders of the nation this powerful book will inform policy makers scholars activists and anyone else interested in race rhetoric and immigration in the united states

to this day there persists a widespread assumption that adorno's references to marx and especially to marx's critique of political economy represent a relic from an early and short lived stage of adorno's theoretical development on the basis of relevant and largely unpublished textual sources this book refutes this thesis while showing that the centre of adorno's critical theory of society is occupied by

a critique not only of political economy but of economy in general

this comprehensive study of marcuse's thought concentrates on his theory of freedom arguing that it is this which supplies the key to all his writings this argument is substantiated by a detailed chronological examination of marcuse's works the author shows the rigorous logic underlying marcuse's thinking which is often obscured in marcuse's own presentation and pays particular attention to the influence of heidegger and of marx's notion of human labour this sympathetic reconstruction of the subject attempts to rescue marcuse from misunderstanding and superficial criticism and argues that marcuse's most famous work one dimensional man is in fact an aberration from the mainstream of his work this book forms one of the most accessible and reliable treatments of marcuse available

this element traverses the concept and practice of bot mimicry defined as the imitation of imitative software specifically the practice of writing in the style of social bots working as both an inquiry into and an extended definition of the concept the element argues that bot mimicry engenders a new mode of knowing about and relating to imitative software as well as a distinctly literary approach to rendering and negotiating artificial intelligence imaginaries the element presents a software oriented mode of understanding internet culture a novel reading of alan turing's imitation game and the first substantial integration of walter benjamin's theory of the mimetic faculty into the study of digital culture thus offering multiple unique lines of inquiry ultimately the element illuminates the value of mimicry to the understanding of an emerging practice of digital literary culture to practices of research and to our very conceptions of artificial intelligence

a comprehensive study of education in the writings of walter benjamin walter benjamin's antifascist education is the first comprehensive analysis of educational themes across the entirety of the critical theorist's diverse writings starting with benjamin's early reflections on teaching and learning tyson e lewis argues that the aesthetic and cultural forms to which benjamin so often turned namely radio broadcasts children's theatrical productions collections cityscapes public cinemas and word games swell with educational potentialities what emerges from lewis's reading is a constellational curriculum composed of minor practices such as poor teaching absentminded learning and nondurational studying this curriculum carries political significance offering an antidote to past and present forms of fascist manipulation hardness and coldness walter benjamin's antifascist education is a testimony to benjamin's belief that everyone is an educator and everyone needs to be educated and everything is education taking up the multifaceted benjaminian conception of educational life a life of studious straying and self reflection at once critical and mimetic and following its untoward trajectory in object areas as diverse as slapstick film riddles cityscapes and children's theater this subtle imaginative and comprehensive analysis speaks directly to the moral and spiritual crisis of the present howard eiland massachusetts institute of technology

a powerful book on caste a subject that has dramatic importance not only for the history of democracy in modern india but for the general discussion on the interferences of social inequalities and cultural exclusions the caste question goes beyond the usual antitheses of localism and globalism and illustrates a decisive notion of intensive universality etienne balibar a sustained and probing analysis of the modern history of caste in western india connecting issues of gender personhood property and politics to facts of oppression and inequality this is the most politically and theoretically engaged book on caste to have come out in a long time dipesh chakrabarty author of habitations of modernity a profound reflection at once historically rich and theoretically nuanced on the nature of political modernity itself john comaroff co author with jean comaroff of of revelation and revolution rao is entirely convincing in this brilliant and audacious re evaluation of political modernity in india through the perspective of anti caste struggles mrinalini sinha author of specters of mother india the global re structuring of an empire

walter benjamin's 1931 essay a short history of photography is a landmark in the understanding and criticism of the medium offering surprising new takes on such photographic pioneers as david octavius hill and nicéphore niépce and their aesthetic and technical achievements on photography presents a new translation of that essay along with a number of other writings by benjamin some of them presented in english for the first time translator and editor esther leslie sets benjamin's work in context with prefaces to each piece and contributes a substantial introduction that considers benjamin's engagement with photography in all its forms including early

commercial studio photography the uses of photography in science and much more

in a 1987 interview José Saramago eloquently expressed what could be considered his political philosophical manifesto human beings should not content themselves with the role of mere observers they bear a responsibility to the world they must actively engage and intervene in 1998 the celebrated writer was honoured with the nobel prize for literature so saramago did not only as a human being and a citizen but also as an artist refuse to be a passive observer despite his profound and always critical pessimism he tirelessly propelled both his public and artistic persona toward impactful actions and interventions showcasing an unwavering dedication to reshaping the world this volume seeks to delve into this facet of his legacy exploring it from diverse political and philosophical perspectives
