thomas sebeok n^o 11th s handbook is an outstanding encyclopedia that provides first rate information on many facets of sign related studies research results and applications social sciences in general

this book deals with two fundamental issues in the semiotics of the image the first is the relationship between image and observer how does one look at an image to answer this question this book sets out to transpose the theory of enunciation formulated in linguistics over to the visual field it also aims to clarify the gains made in contemporary visual semiotics relative to the semiology of roland barthes and emile benveniste the second issue addressed is the relation between the forces forms and materiality of the images how do different physical mediums

pictorial photographic and digital influence visual forms how does materiality affect the generativity of forms on the forces within the images the book addresses the philosophical thought of gilles deleuze and rené thom as well as the experiment of aby warburg s atlas mnemosyne the theories discussed in the book are tested on a variety of corpora for analysis including both paintings and photographs taken from traditional as well as contemporary sources in a variety of social sectors arts and sciences finally semiotic methodology is contrasted with the computational analysis of large collections of images big data such as the media visualization analyses proposed by lev manovich and cultural analytics in the field of computer science to evaluate the impact of automatic analysis of visual forms on digital art history and more generally on the image sciences

a vital force in european linguistics and literary scholarship in the 1930s the prague school opened up the rich field of semiotics and art the study of art as the creative use of the sign became one of its principal areas of critical examination and in this collection of 21 essays this concept of semiotics is brought to bear on a wide range of the arts including theater film poetry folk art and painting the editors are professors in the department of slavic languages and literature at the university of michigan ann arbor

using a large number of filmic examples keyan tomaselli forcefully underlines the relevance of a semiotic approach to visual representations

this second edition of the landmark book reading images builds on its reputation as the first systematic and comprehensive account of the grammar of visual design drawing on an enormous range of examples from children s drawings to textbook illustrations photo journalism to fine art as well as three dimensional forms such as sculpture and toys the authors examine the ways in which images communicate meaning features of this fully updated second edition include new material on moving images and on color a discussion of how images and their uses have changed through time websites and web based images and ideas on the future of visual communication reading images focus on the structures or grammar of visual design color perspective framing and composition provides the reader with an invaluable tool kit for reading images and makes it a must for anyone interested in communication the media and the arts

this work is arranged in two sections the first presenting the international debate concerning the theoretical prerequisites for the study of the relation of literary text to pictorial art the second explicates the author s concept of iconic projection which is the human disposition to perceive reality as if it were a picture

bogdan sets forth criteria and methods of a structural analysis of the pictorial language as a first step toward a more adequate understanding of the semiotic system of visual arts a structural approach to this pictorial language is presented along with a discussion of an information processing model applied to optical illusions and computer simulations and treatment of specifically paradigmatic case studies bogdan also discusses the funeral monument of targu jiu by constantin brancusi one of the most important innovators in modern art
