the award winning author of *Satin Dreams* delivers a novel that delves into the dark side of a famous model's picture perfect life. Samantha Whitfield is a highly successful fashion model traveling from New York to Paris to London as part of her glamorous high profile career. Her face is the one every photographer needs, her body what every designer imagines. She plays for keeps in the fast paced game of the fashion glitterati, only to risk it all on the demands of her own insatiable passions. Her world is fraught with the illicit dangers of sex and drugs, millionaires and hangers on, a dazzling whirlwind of high fashion and high stakes where everyone is willing to succeed at any cost.

Perspectives on Creativity explores the topic of creativity from multiple viewpoints including those of the philosopher, psychologist, neuroscientist, therapist, educator, and artist. The book is organized around a series of themes beginning with a consideration of the nature of creativity and how it can be cultivated, with special attention to how creativity can be fostered in the classroom and work settings. The second section presents qualitative studies of artists and asks what we can learn about creativity from the lives and work of these individuals, such as whether there exists a relationship between creativity and mental illness. The third section examines the healing power of creativity within the therapeutic milieu, from the relatively more well known music and art therapy to the less familiar drama therapy. The final section of the book explores the relationship between creativity and the brain and presents studies to address whether the brains of creative individuals function differently from those of the less creative. What makes this book unique is that the topic of creativity is considered in an interdisciplinary way from both theoretical and applied perspectives, making it appealing to individuals from a wide variety of backgrounds.
