this book looks back at the origins of program evaluation by summarizing comparing and contrasting the work of seven major theorists of program evaluation it provides an important perspective on the current state of evaluation theory and provides suggestions for improving its practice

this book examines the subject matter of psychology against the background of the philosophical problem of reality it locates the core of the issue in the dualistic conception of reality which it argues has left psychologists with a conceptually constrained choice of subject matter for instance between experience and behavior not to mention philosophically incomplete ways of discussing its possible subject matters by drawing on the work of philosophers and philosophically informed psychologists the book seeks to explain and advance the long standing debate by introducing the under utilized perspective of ideal realism the historical origins and trajectory of ideal realism are recovered from the late 18th century through the early 20th century the exposition of this tradition especially in the little known german realpsychologie provides theoretical psychology with a philosophically founded understanding of its subject matter

foundations of human resource development is a careful presentation of the basic theory and practice of human resource development hrd the book clearly frames and explains hrd in a manner that is useful for beginners and experts working definitions and core values derived from the history of hrd and its present challenges are presented

this text will be an invaluable addition to the reading of students and tutors alike it has been written thoughtfully for students embarking on university courses that study aspects of early childhood education the introductory chapters give the reader a sense of the thinking and reflection that is helpful for them at the beginning of their studies and a clear focus on the rights of our youngest children roots the text in a sound pedagogical frame the later chapters broaden the argument and feel very relevant to the current context in their explorations of the policy and practice of eyfs i would strongly recommend this text jo albin clark senior lecturer in early years education edge hill university this book introduces all the most important aspects of early years

And J
~~care and education and will help you develop the key skills needed to study at degree level each~~
chapter introduces major concepts and theories which allow you to explore the foundations of key early childhood issues and apply them in practice topics include children s rights the early years curriculum how children learn and develop health and well being as well as looking at important aspects of study such as how to search primary sources such as policy documents and journals how to use your personal experience in studying how to develop critical reading and writing skills with specific learning features designed for different levels of study this book will be invaluable to students studying at levels 4 and 5 of early childhood degrees and foundation degrees with features designed to support students as they make the transition to honours level study digital resources for extra support check out the companion website for additional material including interactive glossary flashcards journal tasks web links to more handy online resources
