this book explores deuteronomy's understanding of exile while deuteronomy speaks of a potential historical experience in the nation's future exile is also a dynamic theological concept in short exile represents the death of israel in losing her land israel apparently also loses her identity history and covenant relationship with yahweh restoration from exile then is a resurrection from death to life since exile is a recurring theme in deuteronomy the theology of the book must be considered in light of its vision of exile and restoration the thesis of the following study consists of three major aspects 1 the theological construct that exile constitutes the death of israel 2 the pervasiveness of the theme of exile in deuteronomy and 3 the significance of the theme of exile for understanding and developing the theology of the book while the theological connection between exile and death is not new this study attempts to ground this association in the vocabulary of the text this in turn will open up a more nuanced reading of the entire book in which the persistent presence and influence of the theme of exile on deuteronomy's overt message underlying theology and structure will be recognized a major catalyst for this work is a network of debates among evangelicals in new testament theology including covenant nomism and the new perspective on paul for some jesus preaching of the kingdom and the forgiveness of sins is tied up with the nation's expectations of the return from exile which is fulfilled in his death and resurrection proponents of this position e.g. n.t. wright often turn to deuteronomy for support in some ways the present work implicitly enters this discussion by providing old testament theological background en route to evaluating implications being drawn

this volume provides a broad interpretation of anselm's theological method through a study of his monologion the monologion has been chosen specifically because of its rich and nuanced account of the search for the one god through a careful analysis of this text what becomes evident is that anselm's theological project is much broader than a single argument or a simple account of how divine justice and honor are appeased what one encounters is a theology informed by the notion of the human desire for god and the honest search to come to know god in an intimate way the monologion therefore will present an entry point into anselm's theological project the second half of the volume will examine the reception history of anselm's two most famous philosophical and theological contributions i.e. the ontological argument and the satisfaction theory anselm is often misunderstood because his approach to theology is reduced to the one argument or a carefully construed calculus of human redemption such readings of anselm abound and often obscure the benedictine context within which his thought developed and so a careful reading of anselm's texts and the history of reception and interpretation will offer a counter narrative to the standard perception of one of the greatest thinkers of christian history
