in an age of reliance on cad programs the skill to express a
vision with a hand rendered drawing gives an interior designer a
distinct advantage in communicating with clients this book helps
students develop this powerful marketing tool

the study of compounds is currently at the center of attention in
many areas of both theoretical and applied linguistics this
volume brings together contributions by experts involved in a
wide range of such areas based on a large number of diverse
languages spoken and signed the fact that compound constructions
are at the interface of the various components of language
morphology syntax phonology and semantics makes them ideal
testing grounds for models of grammatical architecture as seen in
a number of these chapters the breadth and depth of the coverage

of topics as well as the unified bibliography make this volume a basic reference source for those interested in current theoretical as well as experimental approaches to compounding and thus to theoretical linguists as well as psycholinguists and researchers in related fields of cognitive science

the ability to effectively and persuasively communicate design solutions is an essential but often underemphasized skill for successful interior design and presentation strategies dialogues helps students hone that ability by teaching aspiring designers how to use imagination voice gesture presence visual content and analytical and physical tools the book empowers readers to bring their ideas to life in a clear and compelling manner working from a view of the design presentation as an exchange of ideas the book explores in depth how to cultivate interactions with clients and respond to their feedback this eminently practical how to book is a valuable resource for any design student as a reference for a design studio class or as a text for professional practice courses
