a companion volume to fernando pessoa s the book of disquiet and the complete works of alberto caeiro
Álvaro de campos is one of the most influential heteronyms created by portugal s great modernist writer fernando pessoa according to pessoa campos was born in tavra algarve in 1890 and studied mechanical engineering in glasgow although he never managed to complete his degree in his own day campos was celebrated and slandered for his vociferous poetry imbued with a whitman inspired free verse his praise of the rise of technology and his polemical views that appeared in manifestos interviews and essays here in margaret jull costa and patricio ferrari s translations are the complete poems of campos this edition is based on the portuguese tinta da china edition and includes an illuminating introduction about campos by the portuguese editors jerónimo pizarro and antonio cardiello facsimiles of original manuscripts and a generous selection of campos s prose texts

diffusions in architecture a guide to diffusion models and their impact on design with insight on how this novel artificial intelligence technology may disrupt the industry
diffusions in architecture artificial intelligence and image generators delves into the impact of generative ai models and their effect on architecture design and aesthetics the book presents an in depth analysis of how these

new technologies are revolutionizing the field of architecture and changing the way architects approach their work the architects presented in the book focus on the application of specific ai techniques and tools used in generative design such as diffusion models dall e2 stable diffusion and midjourney it discusses how these techniques can generate synthetic images that are both realistic and imaginative creating new possibilities for architectural design and aesthetics twenty two leading designers and theorists offer their insights providing disciplinary depth by covering the full impact of these learning tools on architecture

why did a millenarian movement erupt in the brazilian interior in 1912 setting out to answer this deceptively simple question todd a diacon delivers a fascinating account of a culture in crisis combining oral history with detailed archival research millenarian vision capitalist reality depicts a peasant community whose security in economic social and religious relations was suddenly disrupted by the intrusion of international capital diacon shows how a deadly triumvirate comprised of foreign capital state power and local bosses engineered a land tenure revolution that threatened smallholders subsistence sparking rebellion among the contestado peasants unlike most analysis of millenarian movements diacon combines a material analysis with a careful exploration of the movement's millenarian ideology to demonstrate how a particular combination of external and internal forces produced a crisis of values in the contestado society such a crisis diacon concludes gave a special power to the millenarian vision that promised not only outward reform but inner salvation as well this work offers a significant contribution to the literature of millenarian movements popular religion peasant rebellions and the transition to capitalism in brazil

this concise dictionary is intended to be helpful in the reading of archaeological books and publications and in the writing of papers and articles in both english and italian

this book offers readers fresh insights on applying extended reality to digital anatomy a novel emerging discipline indeed the way professors teach anatomy in classrooms is changing rapidly as novel technology based approaches become ever more accessible recent studies show that virtual vr augmented ar and mixed reality mr can improve both retention and learning outcomes readers will find relevant tutorials about three dimensional reconstruction techniques to perform virtual dissections several chapters serve as practical manuals for students and trainers in anatomy to refresh or develop their digital anatomy skills we developed this book as a support tool for collaborative efforts around digital anatomy especially in distance learning international and interdisciplinary contexts we aim to leverage source material in this book to support new digital anatomy courses and syllabi in interdepartmental interdisciplinary collaborations digital anatomy applications of virtual mixed and augmented reality provides a valuable tool to foster cross disciplinary dialogues between anatomists surgeons radiologists clinicians computer scientists course designers and industry practitioners it is the result of a multidisciplinary exercise and will undoubtedly catalyze new specialties and collaborative master and doctoral level courses world wide in this perspective the unesco chair in digital anatomy was created at the paris descartes university in 2015 anatomieunesco.org it aims to federate the education of anatomy around university partners from all over the world wishing to use these new 3d modeling techniques of the human body

i present a new edition of the work corrected and updated the main novelty is that on this occasion i have decided to incorporate some solved cases in a summarized way at the beginning of each block i have sought to make it easier for students to follow the subject also remotely since the solutions in the script will serve them as a guide i have to say that the book is intended to be used in face to face classes those that appear as responses to the cases are not exhaustive of course i always seek to encourage dialogue to encourage participation to enrich learning public speaking is a skill transversal competence in the curriculum that can only be acquired with practice and for this the approach of this work is ideal this manual is made up of different types of practices some are short

questions which aim to help the students to detect whether they have assimilated the knowledge in question or perhaps it is not as clear as they thought others consist of reading an article of interest and then answering to a questionnaire in this case the purpose is to make deeper the knowledge of the students about some particularly complex topic that require a more leisurely reflection due to their difficulty for students of non legal degrees it is especially important in order to achieve a broader and more versatile vision of law

the concept of extraterritoriality designates certain relationships between space law and representation this collection of essays explores contemporary manifestations of extraterritoriality and the diverse ways in which the concept has been put to use in various disciplines some of the essays were written especially for this volume others are brought here together for the first time the inquiry into extraterritoriality found in these essays is not confined to the established boundaries of political conceptual and representational territories or fields of knowledge rather it is an invitation to navigate the margins of the legal juridical and the political but also the edges of forms of representation and poetics within its accepted legal and political contexts the concept of extraterritoriality has traditionally been applied to people and to spaces in the first case extraterritorial arrangements could either exclude or exempt an individual or a group of people from the territorial jurisdiction in which they were physically located in the second such arrangements could exempt or exclude a space from the territorial jurisdiction by which it was surrounded the special status accorded to people and spaces had political economic and juridical implications ranging from immunity and various privileges to extreme disadvantages in both cases a person or a space physically included within a certain territory was removed from the usual system of laws and subjected to another in other words the extraterritorial person or space was held at what could be described as a legal distance in this respect the concept of extraterritoriality presupposes the existence of several competing or overlapping legal systems it is this notion of being held at a legal distance around which the concept of extraterritoriality may be understood as revolving

anti literature articulates a rethinking of what is meant today by literature examining key latin american forms of experimental writing from the 1920s to the present adam joseph shellhorse reveals literature s power as a site for radical reflection and reaction to contemporary political and cultural conditions his analysis engages the work of writers such as clarice lispector oswald de andrade the brazilian concrete poets osman lins and david vi as to develop a theory of anti literature that posits the feminine multimedial and subaltern as central to the undoing of what is meant by literature by placing brazilian and argentine anti literature at the crux of a new way of thinking about the field shellhorse challenges prevailing discussions about the historical projection and critical force of latin american literature examining a diverse array of texts and media that include the visual arts concrete poetry film scripts pop culture neo baroque narrative and others that defy genre shellhorse delineates the subversive potential of anti literary modes of writing while also engaging current debates in latin american studies on subalternity feminine writing posthegemony concretism affect marranismo and the politics of aesthetics
