this unique reading programme has been developed after many years of working as an occupational therapist with children with dyslexia attention deficit adhd and other reading and learning difficulties it has been designed specifically for easy use by parents grandparents and au pairs providing a progressive series of games which are fun to play and which take your child developmentally through the stages of learning to read it can also be used by teachers and remedial teachers as a supplement to their usual lessons because it follows the correct

developmental stages of reading a major difference between this programme and many other programmes for reading is the emphasis on movement rhythm and rhyme parents are often surprised that i encourage movement when teaching reading foundations they are also usually pleased that at last they can stop the fight of trying to keep their child sitting still and focussing quietly while trying to practise his reading movement is fundamental to this programme and rhythm and rhyme are intrinsically linked to movement the section on vestibular processing explains why i have found this to be so necessary and yet overlooked when teaching reading in the introduction i give the reader a brief overview of the underlying principles that have informed my approach i also help the reader identify the developmental foundations that children need in order to begin to learn to read and understand how each developmental step prepares the way for the next this is not an in depth academic diatribe on neuro development it is an overview designed to inform and empower the reader to be able to get the best out of the programme indeed i have found that when i empower parents this way they usually go away to return with even better more creative ideas and their children progress so much faster reading does not begin with the recognition of written letters and how they combine to make words children need to learn to become aware of sounds within words and to be able to separate sounds from each other they need to be able to play with sounds they also need to recognise shapes of letters and remember the sounds they represent there is such a lot of learning that needs to be achieved before we can really begin a formal reading lesson the games in this book start at the early developmental stage of learning to listen actively to the different constituent sounds in words and to play with the sounds of words these early games can be played in the park or garden since no books are needed young children who are not yet ready to learn to recognise written words can play these games and develop a strong base on which to build writing and spelling the games then continue to follow the development of the foundation skills needed for reading until the last section of games where actual reading is introduced when the children reach the section of reading text it is presented in rhymes that they have already learnt this not only builds their confidence but also helps them to read with natural flow and tone the ability to recognise words in different fonts is also introduced at this stage each game is presented in easy to follow steps like following a recipe the main aim of the game is briefly described followed by any equipment you might need and where you should play the game equipment is kept minimal and simple and most games are designed to be played in and around the home or garden this makes it easy for parents and children to decide at any time to play a game without much planning ahead an illustration for each game makes it easier to find when paging through quickly and stimulates your child s imagination and interest at the end of the book a series of worksheets is presented these are mostly lists of letters phonic blends and words presented in large bold font and with some grading to develop your child s ability to recognise letters and words in different fonts t

220 frequency sight word worksheets for pre primer primer first second and third preschoolers to 3rd grade increase their reading comprehension level help kids recognize write and really learn

sight words are the words that appear most frequently in our reading and writing often these words do not have a concrete image that accompanies them they are high frequency words that may not be able to be pictured and as such they simply must be memorized and understood our sight words activity workbook features 101 sight words worksheets a worksheet contains activities as color the word trace it find and circle the word connect the letters write the word write the word in a sentence color the picture related fun and engaging activity workbook to make the learning process easy handy table of content double sided print 8 5 x 11 large format 105 pages paperback glossy cover perfect bound the activities inside make it fun and accessible for kindergarten and first grade students to learn the top 101 sight words and increase their reading speed and comprehension if you are ready to get your kids reading and writing to the next level then click add to cart please click on pencil author for more awesome books for kids and adults

how might educational leaders and teachers improve literacy achievement in schools serving
communities experiencing high levels of poverty this question is the focus of this book drawing on
long term case studies of four primary schools located in these communities this book describes
the difference between what is commonly practiced and those practices that have a greater
chance of supporting young people s literacy learning in this multi layered analysis of the effects of
policy on practice the authors discuss global concerns with literacy policy and testing in view of
the growing gaps between rich and poor examine the effects of the intensification of inequality
and entrenched poverty and the implications for schools illustrate how deficit discourses
pertaining to communities living in poverty are contested in schools and describe the complexities
of sustaining pedagogical and curriculum change to address the problem of unequal educational
outcomes in literacy this book grapples with some of the most debated questions regarding
educational disadvantage school change leadership and literacy pedagogy that face educational
researchers policy makers and practitioners internationally as well as providing a critique of the
risks of current policy rationales it conveys some hopeful accounts of practice that provide leads
for further development

this workbook is a great resource for teachers and parents who wish to help their little ones read
and spell the first 50 dolch sight words this activity book contains trace it write it build it color it
and find it activity worksheets unicorn and dinosaur themed pages tracking sheets a certificate
