dialetheism is the view that some contradictions are true this is a view which runs against orthodoxy in logic and metaphysics since aristotle and has implications for many of the core notions of philosophy doubt truth to be a liar explores these implications for truth rationality negation and the nature of logic and develops further the defence of dialetheism first mounted in priest s in contradiction a second edition of which is also available

real ghost stories and hauntings many of us think about ghosts and ghost stories happening anywhere but particularly in and around houses hospitals churches an old attic or an inn and many more places ghosts appear in all kinds of places and in different forms and there could be reasons why they might appear this short ghost storybook is part of a trilogy series based on actual real life personal stories we are never alone so to speak there is always some kind of presence around us all whether good or bad sit back relax and enjoy these nineteen short tales with more true life stories to come read this book now

the claim that all human thought involves interpretation that all human thought is in some way relative to a contingent context of cognitive theoretical practical and aesthetic considerations has become widely accepted but what we understand by truth and how we should best pursue it are questions raised with renewed force once a hermeneutical starting point has been embraced brice r wachterhauser s collection hermeneutics and truth is an attempt to contribute to this conversation no thinkers have wrestled with the issue of truth and interpretation in more illuminating ways for the continental tradition of philosophy than heidegger and gadamer hermeneutics and truth is a dual focus on heidegger and gadamer but it concentrates primarily on gadamer s efforts to think through the issue of truth for hermeneutics and only secondarily on heidegger s thought on this issue

truth is in trouble in response this book presents a new conception of truth it recognizes that prominent philosophers have questioned whether the idea of truth is important some have asked why we even need it their questions reinforce broader trends in western society where many wonder whether or why we should pursue truth indeed some pundits say we have become a post truth society yet there are good reasons not to embrace the cultural zeitgeist or go with the philosophical flow reasons to regard truth as a substantive and socially significant idea this book explains why first it argues that propositional truth is only one kind of truth an important kind but not all important then it shows how propositional truth belongs to the more comprehensive process of truth as a whole this process is a dynamic correlation between human fidelity to societal principles and a life giving disclosure of society the correlation comes to expression in distinct social domains of truth where either propositional or nonpropositional truth is primary the final chapters lay out five such domains science politics art religion and philosophy anyone who cares about the future of truth in society will want to read this pathbreaking book

this volume reprints eight of anil gupta s essays some with additional material the essays bring a refreshing new perspective to central problems of philosophy gupta argues that logical interdependence is legitimate and that it provides a key to understanding a variety of topics including truth rationality and experience
