linear time series models robust parametric inference robust parametric estimation model uncertainty advance bibliography author index subject index

this book is well known for its coverage of modern topics game theory economics of information and behavioral economics clarity of its writing style and graphs and integrated use of real world examples the emphasis on relevance and application to both managerial and public policy decision making are focused goals of the book this emphasis is accomplished by including many extended examples that cover such topics as the analysis of demand cost and market efficiency the design of pricing strategies investment and production decisions and public policy analysis economists and strategists looking to stay current with economic information

during the past twelve years a course on critical care medicine has been sponsored by the post graduate division of the university of southern california school of medicine in association with its center for the critically ill the content of each of the symposia has paralleled the evolution of critical care medicine as a recognized service specialty the annual program was planned as a teaching session for physicians and allied medical personnel who sought to advance their involvement in this rapidly advancing field a panel of highly regarded authorities on subjects bearing on critical care medicine faculty members of the usc school of medicine and staff members of our own center for the critically ill at the hollywood presbyterian medical center serve as faculty of these symposia although the primary commitment of the organizers to maintain this as a teaching and demonstration session was not abandoned the number of annual registrants progressively increased from fewer than 100 to more than 1200 gradually outstripping local hotel facilities in central los angeles the symposium for the past two years has been held in the large and attractive anaheim convention center adjacent to disneyland

this book originally published in 1994 explores the effects of federal policies on the us auto industry in the 1970s and 80s which were designed to save jobs and help the domestic industry become more competitive the author develops a new model based on modern oligopoly theory to estimate the effects of the voluntary restraint agreements which limited japanese imports on the us auto market the results demonstrate that vras caused price increases which adversely affected the competitiveness of us producers on the eve of a new trump administration and the likelihood of new restrictions on imports to boost us manufacturing this book has particular enduring relevance

for decades the market asset and income approaches to business valuation have taken center stage in the assessment of the firm this book brings to light an expanded valuation toolkit consisting of nine well defined valuation principles hailing from the fields of economics finance accounting taxation and management it ultimately argues that the value functional approach to business valuation avoids most of the shortcomings of its competitors and more correctly matches the actual motivations and information set held by stakeholders much of what we know about corporate finance and mathematical finance derives from a narrow subset of firms publicly traded corporations the value functional approach can be readily applied to both large firms and companies that do not issue publicly traded stocks and bonds cannot borrow without constraints and often rely upon entrepreneurs to both finance and manage their operations with historical side notes from an international set of sources and real world exemplars that run throughout the text this book is a future facing resource for scholars in economics and finance as well as the academically minded valuation practitioner

this volume contains a selection of papers presented at the first conference of the society for computational economics held at icc institute austin texas may 21 24 1995 twenty two papers are included in this volume devoted to applications of computational methods for the empirical analysis of economic and financial systems the development of computing methodology including software related to economics and finance and the overall impact of developments in computing the various contributions represented in the volume indicate the growing interest in the topic due to the increased availability of computational concepts and tools and the necessity of analyzing complex decision problems the papers in this volume are divided into four sections computational methods in econometrics computational methods in finance computational methods for a social environment and new computational methods list

this publication contains a substantial amount of detail about the broad history of the development of econometric software based on the personal recollections of many people for economists the computer has increasingly become the primary applied research tool and it is software that makes the computer work

we examine the role of consumption externalities in the demand for pharmaceuticals at both the brand level and over a therapeutic class of drugs these effects emerge when use of a drug by others affects its value and or conveys information about efficacy and safety to patients and physicians this can affect that rate of market diffusion for a new entrant and can lead to herd behavior whereby

a particular drug can dominate the market despite the availability of close substitutes we use data for h2 antagonist antiulcer drugs to estimate a dynamic demand model and quantify these effects the model has three components an hedonic price equation that measures how the aggregate usage of a drug as well as conventional attributes affect brand valuation equations relating equilibrium market shares to quality adjusted prices and marketing levels and diffusion equations describing the dynamic adjustment process we find that consumption externalities influence both valuations and rates of diffusion but that they operate at the brand and not the therapeutic class level

this book provides a bridge between the introductory research methods books and the discipline specific higher level texts its unique feature is the coverage of the detailed process of research rather than the findings of research projects chapter authors have been carefully selected by their expertise discipline and location to give an eclectic range of perspectives particular care has been taken to balance positivist with interpretivist approaches throughout the authors focus is on the practical consequences of research philosophies strategies and techniques by using their own research and by evaluating the work of others advanced research methods in the built environment addresses common topics raised by postgraduate level researchers rather than dealing with all aspects of the research process issues covered range from the practicalities of producing a journal article to the role of theory in research the material brought together here provides a valuable resource for the training and development of doctoral and young researchers and will contribute to a new sense of shared methodological understanding across built environment research

this collection contains 83 papers presented at the solutions to coastal disasters 2002 conference held in san diego california february 24 27 2002

this timely handbook draws together insightful analyses of natural resource management challenges and solutions in the face of sustainable development targets and a changing global climate

this book tracks and critiques the impact of the internet in africa it explores the legal policy implications of and legal responses to the internet in matters straddling human rights development trade criminal law intellectual property and social justice from the perspective of several african countries and the region well known and emerging african scholars consider whether access to the internet is a human right the implications on the right to privacy e commerce cybercrime the opportunities and dangers of admitting

electronic evidence the balancing of freedom of expression with the protection of intellectual property and how different african legal systems address this tension this book will be an invaluable resource for a wide range of stakeholders including researchers scholars and postgraduate students policymakers and legislators lawyers and judicial officers crime fighting agencies national human rights institutions civil society organisations international and regional organisations and human rights monitoring bodies

lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the nasa scientific and technical information database
