the part 3 mrcog is a clinical assessment of knowledge skills attitudes and competencies passing the part 3 exam leads to the award of the membership of the royal college of obstetricians and gynaecologists mrcog and remains the essential waypoint for uk trainees to pass from core training to higher training trainees must have passed mrcog parts 1 and 2 before they can sit the part 3 exam royal college of obstetricians and gynaecologists this book is a complete revision guide for students preparing for the mrcog part 3 examination beginning with an overview of training in obstetrics and gynaecology in the uk and basics of the exam the following chapters provide step by step tips and advice on aspects of the exam patient safety communication with patients and colleagues information gathering application of knowledge and clinical governance the book features nearly 50 osce scenarios with variations that may be encountered in the exam as well as clinical problems and their solutions related specialties such as anatomy genetics immunology endocrinology and psychology are also discussed key points complete revision guide for students preparing for the mrcog part 3 examination features nearly 50 osce scenarios that may be encountered in the exam includes clinical problems and their solutions discusses structure of the uk national health service and the role of midwives in the care of pregnant women

osce examinations are compulsory for medical students and specialist trainees the student is led through a clinical scenario and then assessed on examination history taking investigation diagnosis and management some students are able to practice osces with a teacher acting as the patient however not all candidates have equal sufficient access to teachers as such a resource this often leads to examination candidates not being prepared for the osce exam format performing poorly compared with written paper examinations the proposed book will cover an approach to passing the osce as well as 60 practice questions each case will have a sample marking scheme after the marking scheme there will be a discussion and key points

pitfalls section

high quality education and training of medical professionals is crucial to a healthy society and to ensure the wellbeing of global populations medical education should be inclusive collaborative and innovative in order to produce clinicians and healthcare professionals able to meet the challenges of a globalized and interconnected world importantly healthcare professionals need to be up to date with the latest developments and techniques in the field while students embarking on their medical education require not just a robust and forward facing curriculum but also the self reflective and interpersonal skills so crucial to a resilient workforce this research topic welcomes manuscripts that cover the education of healthcare professionals in the obstetrics and gynecology field from undergraduate and postgraduate studies to continuing medical education post university

the osce observed structured clinical examination is a recently introduced examination for trainee obstetricians and gynaecologists the examination requires students to move around a series of stations where skills such as clinical assessment data interpretation and communication are tested at each station the candidate is expected to deal with the situation using a problem orientated approach this text includes three full osce papers and features full answers to each question by self testing using this book candidates will be equipped to deal with the many different scenarios likely to be encountered in these examinations and in the wider context will help the medic to develop essential practical skills

fully updated this book now contains new communication skills criteria and more clinical examination stations information on the osce making scheme and mock exams make the books ideal for exam practice

a companion volume to rymer preparation and revision for the drcog osce objective structured clinical examination is a technique of assessment now central to the drcog examination the student has to circulate past a number of stations within a specified time interval and then answer questions on the case stations could be a photograph a radiograph a specimen or a patient because of the time limit there is a technique required for success this book gives students practice in osce examinations comprising 4 osce style examinations each consists of roughly 25 stations including colour photographs and

radiographs after each set full explanatory answers are given there is also a useful chapter on osce technique and the best way to approach this type of assessment

it is with great happiness that i would like to acknowledge a great deal of people that get helped me extremely through the entire difficult challenging but a rewarding and interesting path towards some sort of edited book without having their help and support none of this work could have been possible
