how can you use a state s film tax credits to fund your film see page 63 you have an idea you want to pitch to a production company how do you safeguard your concept see page 77 how can you fund your production with product placement see page 157 how do you get a script to popular hollywood actors and deal with their agents see page 222 find quick answers to these and hundreds of other questions in this new edition of the pocket lawyer for filmmakers this no nonsense reference provides fast answers in plain english no law degree required arm yourself with the practical advice of author thomas crowell a tv producer turned entertainment lawyer this new edition features new sections on product placement film tax credits and production incentive financing letters of intent and diy distribution four walling youtube download to own amazon com itunes and netflix updated case law even more charts and graphics to help you find the information you need even more quickly this book is the next best thing to having an entertainment attorney on retainer

because the eu depends on a very small number of external suppliers for its natural gas energy security issues inevitably arise in theory competition law should regulate and adjudicate such issues yet because contracts between eu companies and producers are highly sensitive and politically charged the application of eu competition law to natural gas contracts is far from clear this important book

drawing on ecj case law commission administrative cases and inquiries and the full range of relevant legal and economic theory provides an extremely valuable and detailed study of how eu competition law can be applied to long term natural gas capacity reservation and commodity contracts issues and topics such as the following arise in the course of the analysis third gas market directive provisions article 102 tfeu cases on strategic under investment pre liberation or legacy gas contracts e g with algeria and russia right of first refusal take or pay requirement third party access ownership unbundling effect of elimination of priority access regimes short term trading spot markets and law and economics of vertical restraints focusing on the foreclosing effect of long term upstream commodity contracts the author recommends restrictions on the use of capacity reservation contracts and analyses the efficacy of security of supply as a competition law defence in cases relating to such contracts

the felony murder doctrine is one of the most widely criticized features of american criminal law legal scholars almost unanimously condemn it as irrational concluding that it imposes punishment without fault and presumes guilt without proof despite this the law persists in almost every u s jurisdiction felony murder is the first book on this controversial legal doctrine it shows that felony murder liability rests on a simple and powerful idea that the guilt incurred in attacking or endangering others depends on one s reasons for doing so inflicting harm is wrong and doing so for a bad motive such as robbery rape or arson aggravates that wrong in presenting this idea guyora binder criticizes prevailing academic theories of criminal intent for trying to purge criminal law of moral judgment ultimately binder shows that felony murder law has been and should remain limited by its justifying aims

electric power systems are experiencing significant changes at the worldwide scale in order to become cleaner smarter and more reliable this edited book examines a wide range of topics related to these changes which are primarily caused by the introduction of information technologies renewable energy penetration digitalized equipment new operational strategies and so forth the emphasis will be put on the modeling and control of smart grid systems the book addresses research topics such as high efficiency transformers wind turbines and generators fuel cells or high speed turbines and generators
