previous scholarship on fascism in slovakia has focused on either state actors operating  
 from urban centres or the mechanisms of violence on a grassroots level with the result  
 being that the holocaust is seen as primarily a top down and state centred process in  
 contrast hana kubátová reveals here a dynamic and unexplored centre periphery  
 relationship and how violence against the jewish population unfolded in both cities and  
 the countryside and on both national and local levels as an integral component of  
 broader nation building efforts the authority of the fascist regime and the newly founded  
 slovak state hinged not only on appeasing hitler but also on civilian populations of the  
 nation s heterogenous eastern borderlands especially local elites such as priest and  
 teachers as well as the rural masses the book explores how this relationship was  
 forged how it was maintained and how ultimately christian nationalism operated as a  
 political strategy that brought differently positioned actors together to broker deals over

resources and power accrued through the co enactment of genocide by a broad coalition of perpetrators on the ground in so doing this little known chapter of holocaust history offers a new way to understand the dynamics and escalations of mass violence and how collaborations between elite and popular groups can pave the way for ethnic cleansing across different territories and even times
