collections usually reflect the personal nature of collecting sometimes indicating the intellectual interests and curiosity of their owners and in many cases their particular tastes and passions through the relationship between the collection and its space whether physical or theoretical the collection takes on more nuanced meanings than solely ambition and reputation reflecting the varied meanings the collection had for its owner and increasingly for a wider public this new book is part of the collecting histories series and investigates an understudied field of research in the history of collecting access to collections is always taken for granted but the essays in this volume show that there were not only diverse types of access but that they also served a range of purposes before the advent of public museums access to most collections was granted at the discretion of the collections owners but in other examples it was only possible vicariously in the form of collection catalogues or eye witness accounts

the romantic landscapes and exotic cultures of arabia have long captured the interests of both academics and the general public alike the wide array and incredible variety of environments found across the arabian peninsula are truly dramatic tropical coastal plains are found bordering up against barren sandy deserts high mountain plateaus are deeply incised by ancient river courses as the birthplace of islam the recent history of the region is well documented and thoroughly studied however legendary explorers such as t e lawrence wilfred thesiger and st john philby discovered hints of a much deeper past during their travels across the subcontinent drawn to arabia by the magnificent solitude of its vast sand seas these

intrepid adventurers learned from the bedouin how to penetrate its deserts and returned with stirring accounts of lost civilizations among the wind swept dunes we now know that prior to recorded history arabia housed countless peoples living a variety of lifestyles including some of the world s earliest pastoralists c munities of incipient farmers fshermen dubbed the ichthyophagi by ancient greek geographers and paleolithic big game hunters who were among the frst humans to depart their ancestral homeland in africa in fact some archaeological investigations indicate that arabia was inhabited by early hominins extending far back into the early pleistocene perhaps even into the late pliocene

with the dramatic increase of the aging population the study and care of gastrointestinal disorders in the elderly have become priority topics for both clinicians and researchers the geriatric approach which includes the epidemiology and pharmacokinetics of drugs as well as a comprehensive multidimensional assessment is particularly important in managing older patients with gastrointestinal disorders since these patients are likely to have multiple interacting problems that interfere with their daily function and complicate their treatment this book presents the results of recent studies in geriatric gastroenterology and reviews both basic and clinical aspects of the field an important section is devoted to the close examination of the structural and functional effects of aging on the physiology of the gastrointestinal tract recent advances in diagnostic tools and the treatment of elderly patients with dysphagia and gastroesophageal reflux disease as well as with nsaid related or helicobacter pylori associated gastroduodenal diseases are reported in updated chapters the physician s approach to the management of disorders of the small intestine colon pancreas and liver is discussed highlighting the specific aspects of such disorders in old age as it is important that the geriatric assessment of elderly patients is carried out by a multidisciplinary team which includes experienced specialists as well as primary care physicians and community health workers the book addresses a wide readership general physicians specialists in geriatrics and gastroenterology and health care providers involved in planning care for elderly patients with gastrointestinal disorders
