why is the metaphor of the founding fathers so insidious and how does it impact american politics american politicians routinely invoke the metaphor of the founding fathers when referring to the men who supposedly set the united states on a path to greatness on average the term founding fathers is uttered by a congressional member every single day that congress is in session why is this metaphor repeated constantly and what effect does it have on policy in invoking the fathers communication scholar sarah kornfield links this rhetorical strategy to the rise of patriarchal white supremacy and christian nationalism in the united states using the house and the senate as the objects of her study kornfield traces the trope of fatherhood across congressional discourse and theorizes a rhetoric of sovereignty in which the founders most obvious heirs white christian men inherit america and its governance congressional politicians

use this metaphor in four ways to supposedly advocate for rights and liberties to demand checks and balances to celebrate american exceptionalism and to call for bipartisan politics these four situations are all at their core disputes over what kind of nation america is or should be metaphors are not harmless kornfield argues and this one is particularly pernicious the fatherhood metaphor is taken up and violently embodied by men s rights groups white supremacist groups and christian nationalists ultimately the book demonstrates how this gendered metaphor creates and reinforces a legislative system in which some are considered more equal than others
