one striking weaknesses of our financial architecture which helped bring on and perhaps deepen the panic of 2008 is an inadequate appreciation of the past information about how the system functioned and the reliability of organizations and institutional controls were drawn from a relatively narrow group of recent examples history and financial crisis lessons from the 20th century is an attempt to broaden the range of historical sources used by policy makers to understand and treat financial crises many recent discussions of the 2008 panic and the economic turmoil have found the situation to either be

unprecedented or greatly similar to that of 1931 however the book's wide range of contributors suggest that the economic crisis of 2008 cannot be categorised in this way this book was originally published as a special issue of business history

we have long thought of the renaissance as a luminous era that marked a decisive break with the past but the idea of the renaissance as a distinct period arose only during the nineteenth century though the view of the middle ages as a dark age of unreason has softened somewhat we still locate the advent of modern rationality in the italian thought and culture of the fifteenth and sixteenth centuries jacques le goff pleads for a strikingly different view in this his last book he argues persuasively that many of the innovations we associate with the renaissance have medieval roots and that many of the most deplorable aspects of medieval society continued to flourish during the renaissance we should instead view western civilization as undergoing several renaissances following the fall of rome over the course of a long middle ages that lasted until the mid eighteenth century while it is indeed necessary to divide history into periods le goff maintains the meaningful continuities of human development only become clear when historians adopt a long perspective genuine revolutions the shifts that signal the end of one period and the beginning of the next are much rarer than we think
