this book provides a pre history of russia s war on ukraine and europe s relations to it illuminating the deep roots of the eu s neighbourhood crisis as well as the migration crises the union created in the last decade to do so the book employs a new and innovative framework that allows for a comprehensive yet nuanced analysis of borders and a more cogent interpretation of their socio political consequences drawing on interdisciplinary scholarship the book analytically examines the key common elements of borderscapes and links them in related arrays to allow for nuanced evaluation of both their particular and cumulative effects as well as interpretation of their overall consequences

particularly for issues of identities and orders the book offers a significant conceptual and theoretical advance providing a transferable conceptualization of borderscapes to guide research analysis and interpretation drawing on the author s experience in policy practice and academia it also makes a methodological contribution by pushing the boundaries of reflexivity in interpretive international relations ir research analyzing three main sites in central and eastern europe cee the book challenges conventional critical wisdom on eu bordering in the schengen zone at its external frontiers and in its eastern neighborhood in so doing it sheds new light on the politics of post communist transitions as well as the contemporary politics of cee it also shows how eu bordering and its relations to identities and orders created great benefits for many europeans but also hindered the lives of many others and became self defeating this book is a must read for scholars students and policy makers interested in a better understanding of critical border studies cbs in particular and international relations in general it will also appeal to anyone interested in cee or wishing to get a deeper understanding of russia s war and the fight for europe s future
